Presents:*

Communication about Public Health Crises: *An Integrated Approach to Crisis and Risk Communication*

by **Dr. Khairul Islam**

Dr. Khairul Islam is an assistant professor of crisis and risk communication in the School of Communication and Multimedia Studies. His research agenda centers on crisis and emergency risk communication, with a particular focus on how organizations communicate risk, respond to extreme events, and navigate recovery. Guided by the belief that delivering the right message to the right people at the right time can save lives, his work advances an integrated crisis and risk communication framework situated within both local and global contexts.
