SUBJECT: Naming of the new athletics ticket/administrative building and certain minor elements of the proposed football stadium

PROPOSED BOARD ACTION

(i) Approval of the naming of the new athletics ticket/administration building as the "Wally Sanger Owls' Club Center" and (ii) approval on the naming of certain minor elements of the proposed football stadium without prior identification of the individual or group for which the element will be named.

BACKGROUND INFORMATION

I. Approval of the naming of the new athletics ticket/administration building as the "Wally Sanger Owls' Club Center"

Wally Sanger is the President and CEO of Royal Concrete Concepts, Inc. Mr. Sanger and his company funded the construction of an athletics department marketing center for the University. This building will incorporate ticketing operations, corporate sales, marketing and promotions and development services. It will also serve as the marketing center for the proposed on-campus football stadium. The value of the building is over \$300,000. Mr. Sanger has also made a significant prior donation for the University's Westgate Wellness/Nursing Center. As noted in Mr. Sanger's resume, Mr. Sanger has 45 years of construction experience and has been continuously recognized for the high quality, energy efficiency, and sustainability of his buildings as well as his community involvement.

II. Approval on the naming of certain minor elements of the proposed football stadium without prior identification of the individual or group for which the element will be named

The University is currently soliciting donations for naming opportunities within the proposed on-campus football stadium. These naming opportunities include certain major elements—including the stadium itself, the field and the clock tower—as well a number of minor elements—including the home lockers, elevators, ticket booth and concession areas. The University Naming Policy requires that the naming of all University Elements (as defined in the policy) after individuals or groups must be approved by this Board. Due to the anticipated number of namings for stadium elements, the administration is requesting Board approval of all stadium namings for certain "minor" elements without prior identification of the individual or group for which the element will be named. For the purposes of this request, the term "minor"

element shall be defined as any element for which the required donation does not exceed \$50,000. All such namings shall otherwise follow the procedures and mandates of the University Naming Policy. Pursuant to Florida Board Governors Regulation (BOG) 9.005, only buildings and facilities require board of trustees approval. As such, the proposed pre-approval request, which does not include the naming of the stadium itself, is within the confines of applicable BOG authority.

IMPLEMENTATION PLAN/DATE

Upon Board approval.

FISCAL IMPLICATIONS

Press Box \$ 3 Million
Scoreboard \$ 3 Million
Family End Zone \$ 3 Million
Stadium Boulevard \$ 3 Million
Plaza \$ 2 Million
Bronze Owl Sculpture \$ 1 Million
Four Cornerstones \$ 1 Million / each
Club Level \$ 500,000
Training Room \$ 500,000
Entrance (4) \$ 500,000 / each
Recruiting Theater \$ 500,000
Priority Club \$500,000
Concourse East/West \$ 250,000 / each
President's Suite \$ 250,000
FAU Locker Room \$ 250,000
Press Room \$ 150,000
Visiting Locker Room \$ 150,000
Director of Athletics Suite \$ 100,000
Head Coach Suite \$ 100,000
Broadcast Booth \$ 100,000
Wall of Recognition \$ 100,000
• Recognition Plaques \$ 25,000
Concession Area (4) \$ 50,000 / each
Ticket Booth (4) \$ 50,000 / each
Elevator (2) \$ 50,000 / each
Home Locker (70) \$ 5,000 / each

RESUMES

Wallace Sanger's 45 years of construction experience as a builder, developer and innovator have been focused on quality and customer satisfaction. He has been continuously recognized for the high quality, energy efficiency, and sustainability of his buildings as well as for his community involvement. A U.S. Navy veteran, Wally received the prestigious Excalibur Award from The Sun-Sentinel in 2007 for his entrepreneurial spirit and commitment to the community in South Florida. Wally has established an organizational culture that emphasizes the key values of innovation, building quality and customer satisfaction as the company's highest priorities. Wally's knowledge and experience combined with his endless desire to construct stronger and more energy-efficient buildings have made him a pioneer in the construction industry recognized throughout Florida and beyond. Wally provides strategic oversight over all Royal Concrete Concepts projects and also directs the R&D efforts for Royal Concrete Concepts. Wally holds 11 U.S. patents in concrete building systems and continues to devote his time to improving concrete precast and modular buildings systems in order to meet his mission of providing safe, energy-efficient buildings.
