SUBJECT: PROPOSAL TO INITIATE REGULATION PROMULGATION FOR BOARD OF TRUSTEES ESTABLISHED INCREASES IN STUDENT FEES FOR ACADEMIC YEAR 2007-2008.

PROPOSED COMMITTEE ACTION

Proposal to authorize the increase in graduate in-state tuition; authorize the promulgation of the Tuition and Fee Regulations reflecting the BOT increases; and authorize the University President to amend the regulations, consistent with Board of Governors' directives and guidelines.

BACKGROUND INFORMATION

The Florida Legislature provided a base increase of 5 percent in undergraduate in-state tuition during the 2007 session, which was subsequently vetoed by the governor. The Legislature also authorized the FAU Board of Trustees to increase graduate and out-of-state tuition. The University is recommending an increase in graduate in-state tuition of 5 percent. The University is not recommending an increase in out-of-state tuition. In order to maintain consistency between in-state and out-of-state matriculation fees, the rule reflects an increase in the graduate out-of-state matriculation fee of \$10.02 and a decrease in the Non-resident fee of \$10.02.

IMPLEMENTATION PLAN/DATE

July 1, 2007.

FISCAL IMPLICATIONS

Establishes regulations consistent with Board of Trustees directives.

FAU Affordability

At FAU, actual out-of-state enrollment by headcount in Fall 2006 was 1,819 (1,240 undergraduate, 521 graduate, 58 unclassified) and 2,044 (1,471 undergraduate, 498 graduate, 75 unclassified) in Fall 2004 – remaining fairly constant. However, expressed as a percent of total enrollment, FAU's out-of-state enrollment has declined from 10.5% of total enrollment in Fall 2000 to 7.1% of total enrollment in Fall 2006.

A comparison of in-state and out-of-state resident and non-resident tuition and fees at FAU to state and national averages shows the following:

- FAU's in-state undergraduate tuition and fees for AY 06-07 for 30 hours was \$3,259. The State of Florida average was \$3,383. The national average was \$5,192. The State of Florida ranks 4th lowest. State of Florida average in-state undergraduate tuition and fees have increased by 25.4% over the past 4 years as compared to 38.9% nationally.
- FAU's in-state graduate tuition and fees for AY 06-07 for 20 hours was \$4,882. The State of Florida average was \$5,080. The national average was \$5,735. The State of Florida ranks 20th lowest. State of Florida average in-state graduate tuition and fees have increased by 39.2% over the past 4 years.
- FAU's out-of-state undergraduate tuition and fees for AY 06-07 for 30 hours was \$16,391. The State of Florida average was \$15,845. The national average was \$12,555. The State of Florida, as a whole, ranked 3rd highest of all states. State of Florida average out-of-state undergraduate tuition and fees have increased by 32.4% over the past 4 years.
- FAU's out-of-state graduate tuition and fees for AY 06-07 for 20 hours was \$18,267. The State of Florida average was \$17,281. The national average was \$12,576. The State of Florida ranked 2nd highest of all states. State of Florida out-of-state graduate tuition and fees have increased by 31.0% over the past 4 years.

Note: These data exclude the "flagship university" in each state (e.g., UGA, UT-Austin); however, University of Florida is included in the Florida average.

Comment: FL non-resident graduate tuition is the highest in the nation among "non-flagship universities."

(5) The following process shall be used to determine the percentage of cost paid by students for setting the matriculation and non-resident fees.

(a) The most recent expenditure analysis, developed in compliance with Florida Statutes, will be used as the base for the full expenditure by level of instruction. Fundable credit hours estimated by the Florida Atlantic University Board of Trustees, for the year prior to the effective date of the fees, will be used for the enrollment base for each level. Expenditures for each level of instruction will be adjusted by using the percentage change in the total expenditures reported in the expenditure analysis as compared to the estimated total expenditures for the year prior to the effective date of the fees.

(b) The adjusted expenditures for each level of instruction will be divided by the credit hours to obtain the full expenditure per credit hour. The percentage of cost paid by students will be determined by finding the percentage the Matriculation Fee is of the full expenditure per credit hour, by level, for resident students; and by finding the percentage the sum of the Matriculation Fee and the Non-Resident Fee is of the full expenditure per credit hour, by level, for non-resident students.
