The Budget Request has been reviewed by President Brogan and the FAU Executive Committee and approved by the Audit and Finance Committee and the Committee for Academic and Student Affairs.

Dr. Jessell stated there are four strategic priorities:

- 1) Access to and Production of Degrees. This includes funding for core disciplines that provide essential service courses; granting financial aid to allow students to achieve full-time status; increasing retention rates; strengthening the provision of services and the infrastructure.
- 2) Meeting statewide professional and workforce needs: specifically our partnership with the University of Miami in the Medical Education Program.
- 3) Building World-Class Academic Programs and Research Capacity: offering stipends and waiver enhancements to attract graduate students and upgrading our library collections and services. Trustee Tripp questioned the permissibility of offering stipends and asked Dr. Jessell to research this.
- 4) Meeting community needs: owing to FAU's wide service area, program costs are high and funding is needed to expand course offerings to meet expanding regional demands. Trustee Trip suggested speaking to leadership and community groups about our distributed campus.
