SUBJECT: REQUEST FOR APPROVAL OF SELF-SUPPORTING AND MARKET-RATE PROGRAMS ANNUAL REPORT

PROPOSED BOARD ACTION

Request approval of Self-supporting and Market Tuition Rate College-Credit Programs Annual Report, 2024-2025

BACKGROUND INFORMATION

The Florida Board of Governors' office is collecting information about self-supporting and market tuition rate college-credit programs at SUS institutions pursuant to the data collection required by Board regulation 8.002(4). Board of Governors Regulation 8.002 provides the definitions and requirements for all self-supporting and market tuition rate college-credit programs.

Board of Governors Regulation 8.002, Self-supporting and Market Tuition Rate Program and Course Offerings, outlines the requirements and process for universities to offer courses and programs as self-supporting and/or charge market-rate tuition. In 2016, the Board adopted a revised version of this regulation to address a statutory change that removed the ability of the Board of Governors to authorize the university boards to set tuition and fees for graduate and professional programs and out-of-state fees for all programs. Since approving this revised regulation in 2016, Board staff have identified several inconsistencies with implementation across the State University System through the data collected from university annual reports. As a result, Board staff recommend amendments to clarify policies regarding allowable activities, program review procedures, and reporting requirements in the State University System.

IMPLEMENTATION PLAN/DATE

Board Regulation 8.002(4)(c) stipulates that the annual report must be approved by each institution's Board of Trustees prior to submission.

FISCAL IMPLICATIONS

Not applicable.
