SUBJECT: APPROVAL OF THE 2021 TEXTBOOK AND INSTRUCTIONAL MATERIALS

AFFORDABILITY ANNUAL REPORT

PROPOSED COMMITTEE ACTION

Request for approval of the Textbook and Instructional Materials Affordability Annual Report.

BACKGROUND INFORMATION

Pursuant to Section 1004.085, Florida Statutes, the Florida Atlantic University Board of Trustees is required to report regarding textbook and instructional materials affordability to Board of Governors by September 30 of each year, the following, as applicable.

- a. Compliance with the 45-day textbook adoption requirement
- b. General education courses that do not require or recommend textbooks and instructional materials
- c. Institutional policies relevant to the issue, and
- d. Efforts to reduce costs to students.

IMPLEMENTATION PLAN/DATE

Presented by: Dr. Bret Danilowicz, Provost and VP for Academic Affairs

Phone: 561-297-3062

Textbook and Instructional Materials Affordability Annual Report

Instructions

- 1. Complete each tab/worksheet as designed. The template reflects the interpretation of the reporting requirements by Board staff. Do not edit the content of the template. Expand the response space as needed.
- 2. Statutory due date is September 30, 2021.
- 3. If there are questions, contact Lynn Nelson, Director of Student Affairs lynn.nelson@flbog.edu4. Include the university contact name and email for the staff who completed the report below:
- University Contact Name and Email: Geoffrey Johnson gjohns45@fau.edu

Textbook and Instructional Materials Affordability Annual Report Fall 2020 and Spring 2021

University Submitting Report: FLORIDA ATLANTIC UNIVERSITY

Date Approved by the University Board of Trustees:

Signature of Chair, University Board of Trustees:

Signature of Vice President for Academic Affairs:

Signature of President:

Textbook and Instructional Materials Selection Process

Report the textbook and instructional materials selection process used for general education courses with high enrollment. Include the course prefix(es) and number(s), the course title(s), and the total number of courses (*n*=). In column "F," use the dropdown arrow in each cell to select the appropriate selection process. The methodology for determining high enrollment courses is as follows: Order courses (course prefix/number) by headcount enrollment, excluding honors courses. The top 10% of courses are determined as high enrollment.

| | Ger | eral Education Courses with High Enrollment | Total Number of Courses (n =) | Selection Process | If "other," describe |

Courses with No Cost for Textbooks/Instructional Materials

Report all institution's course title(s) and number of section(s) (n=) that did not require or recommend the purchase of a textbook(s)/ instructional materials and/or utilized open educational resources. These may include general education courses, upper level courses, and courses for directed independent study, internships, thesis/dissertation, etc.

| Fall 2020 | |

Textbook & Instructional Materials Affordability Initiatives

Describe specific initiatives of the institution designed to reduce the costs of textbooks and instructional materials.

I he FAU Campus Bookstores ofter various costs savings choices in the forms of new, rent new, rent used, buy used, rent digital, and buy digital textbook options. Students can purchase textbooks in formats that will afford them a considerable discount compared to the price of purchasing a new textbook. The bookstore also offers discounts in the form of price matching on textbooks and instructional materials offered from local brick and mortar bookstores and online retailers. If students find their purchased course material at a lower price from a competing retailer, they are eligible to receive the difference in price from the campus bookstore.

Textbooks on Reserve Program

The University Libraries have worked to build a comprehensive reserve collection of course materials available for students to check-out. Student may access course materials for over 400 classes via an online tool where they can locate available textbooks by-course and check them out for 3-hour intervals within the University Libraries. The link to the list of available textbooks can be found here: https://libguides.fau.edu/textbooks-reserves

Book Loaner Programs

The Phyllis and Harvey Sandler School of Social Work makes an increasing number of textbooks available to needy Social Work majors each year. Eligible FAU Social Work students may borrow up to two course textbooks from the department and keep the book for the entire semester free of charge. Like the book loaner program in the School of Social Work, students in the Reaching Individual Success and Empowerment (RISE) program are guaranteed participation in a book loaner program for the fall and spring semesters. Each RISE program participant receives 1-3 loaner books each fall and spring semester.

Inclusive Access Program

FAU implemented the Follettt Access program in spring 2019 which enables costs for selected textbook and course materials to ne included with tuition and other course charges. Student can access savings by opting-in before the start of the semester. Participating students receive up to 40% in discounts on their required/ reccomended course materials and gain access to these materials by the first day of class. Since the launch of this program about 13,000 students have participated and have collectively saved \$566,530.59.

Fall 2020

The fall 2020 inclusive access program included 272 course sections where 5,113 students opted-in to participate and collectively saved \$218,397. These savings represent a 327% increase in savings from the previous fall term.

Spring 2020

The spring 2020 inclusive access program included 259 course sections where 3,767 students opted-in to participate and collectively saved \$202,878. These savings represent a 115% increase in savings increase from the previous spring term.

Has the *opt-in* provision been implemented by your institution for the purchase of student materials? If yes, describe the impact this has this had on student savings, if any.

The opt-in provision was first implemented at FAU in spring 2019 and since then about 13,000 participating students have collectively saved \$659,474.

Has the *opt-ou*t provision been implemented by your institution for the purchase of student materials? If yes, describe the impact this has this had on student savings, if any.

The opt-out provision has not yet been implemented at FAU. University leaders are reviewing considerations to explore the possibility of implementing an opt-out provision in the future.

University Policies for the Posting of Textbooks and Instructional Materials & Compliance with the Posting Deadline

Describe policies implemented to ensure the posting of textbooks and instructional materials for at least 95% of all courses and course sections 45 days before the first day of class.

FAU Regulation 3.004 was promulgated to minimize the cost of textbooks to students while maintaining the quality of instruction and academic freedom. In Fall 2016 this regulation was amended to align with the BOG regulation 8.003. The policy stipulates that textbooks shall be adopted no later than sixty (60) days prior to the first day of classes to allow sufficient time for the FAU Bookstore to work with publishers to confirm the availability of the requested materials and to ensure maximum availability of used books. The additional fifteen (15) daysprovides a time buffer that allows the institution to ensure that it meets the BOG forty-five (45) day posting deadline.

Textbook adoptions are submitted by faculty members through the university's learning management system, Canvas. The adoptions are entered through the Follett Discover portal, which is linked in Canvas and automatically loads the faculty member's course assignments. As adoptions are submitted, they are instantly fed into FAU's course registration system for all course sections. Students utilize a searchable website for FAU Course Materials where they can view required and recommended course materials by term, department, course, and course section. The website details pricing options for all items including buy new, rent new, rent used, buy used, rent digital, and buy digital options.

In addition to the implementation of FAU regulation 3.004, the university's Textbook Adoption Compliance Committee (TACC) comprised of faculty members, administrators, and the University bookstore management, leads the university's textbook adoption compliance efforts. The committee meets each semester and has been an effective medium to increase communication between faculty members, administrators, and the university bookstore.

In an effort to closely track all textbook adoptions, an electronic dashboard was created in fall 2018 to track all adoptions that are submitted to the university bookstore. The Textbook Adoption Dashboard provides real-time textbook adoption information and lists adoption statuses by college, department, course section, and instructor. The dashboard also calculates the average costs for each course and has been made available to all faculty and relevant staff members which enables these users to monitor adoption statuses in real-time and work to alleviate confusion where courses are in the textbook adoption process.

To correct issues regarding late adoptions and changes to existing adoptions that were made after the state posting deadlines the university created a process to minimize late adoptions and textbook changes. In fall 2018, the University implemented a new electronic system to track all adoptions that are submitted to the university bookstore after the posting deadline. Faculty members who attemp to submit late adoptions are required to receive approval from their college's dean and invited to consider no-cost alternatives such as Open Educational Resources (OER).

In fall 2019 the university established annual textbook adoption deadlines that are on average 90-days or more before the start of each semester. These new deadlines were established to provide the university bookstore with additional time to source used and rental materials and helps alleviate the volume of adoptions that would normally occur 2-3 weeks prior to the state deadline when the majority of textbook adoptions were submitted. The new annual deadlines are as follows: fall—April 15, spring—October 15, summer—March 15.

Are the policies effective in meeting the reporting requirement? If not, what measures will be taken by the university to increase faculty and staff compliance for meeting the reporting requirement?

The policies and procedures implemented in recent years have been effective in ensuring the university meets the reporting requirements. The Textbook Adoption Compliance Committee regularly reviews adoptions procedures and works to idenitfy and remedy any issues related to the university's compliance efforts.

| 5,045 4,994 | 98.90% | 0 | 51 | 1.0% | | 5,039 | 4,947 | 98.1% | 0 | 92 | 1.82% |

**Note: Per Board Regulation 8.003 (1) (h), a course or course section added after the posting requirement is considered an exception and should be reported on the "Exceptions" tab. A request for any other exception to the compliance deadline shall be submitted in writing to the designated university official and shall provide a reasonable justification for an exception. A course or section added after the notification deadline is exempt from this notification requirement.

Exceptions

Per Board of Governors Regulation 8.003(1)(h), Textbook and Instructional Materials Affordability, any request for an exception to the compliance deadline shall be submitted in writing to the designated university official and shall provide a reasonable justification for an exception. A course or section added after the notification deadline is exempt from this notification requirement.
