I am aware and understand that it will be my own choice to participate in each activity to whatever degree I deem appropriate, after due consideration of my own physical health, physical, mental and emotional abilities and medical condition. I willingly and knowingly assume for myself, my heirs, family members, executors, administrators, and assigns, all risk of physical injury, accident or death which may occur before, during or after my participation in any aspect of the activity, program or service. Being aware of the dangers and risks inherent in the activities, programs and services, I nonetheless voluntarily choose to attend and participate in the activities and I assume all risks arising out of such participation, including travel to and from the various locations.

I hereby recognize and assume all the risks associated with participation in Instruction Programs and release the State of Florida, Florida Atlantic University and their respective Trustees, employees, officers and agents, and I hold them free and harmless of and from all actions, causes of action, claims, damages and costs arising from and accruing to me on account of death or any and all accident or injury to me, either directly or indirectly sustained by me as a consequence of my travel to or from, or my participation in any activities related to the instructional program. PAR-Q - Physical Activity Readiness Questionnaire

Regular physical activity is fun and healthy, and increasingly more people are starting to become more active every day. Being more active is very safe for most people. However, some people should check with their doctor before they start becoming much more physically active.

If you are planning to become much more physically active than you are now, start by answering the seven questions in the box below. If you are between the ages of 15 and 69, the PAR-Q will tell you if you should check with your doctor before you start. If you are over 69 years of age, and you are not used to being very active, check with your doctor.

Common sense is your best guide when you answer these questions. Please read the questions carefully and answer each one honestly.

Yes ☐ No ☐ Has your doctor ever said that you have a heart condition and that you should only do physical activity recommended by a doctor?

Yes ☐ No ☐ Do you feel pain in your chest when you do physical activity?

Yes ☐ No ☐ In the past month, have you had chest pain when you were not doing physical activity?

Yes ☐ No ☐ Do you lose your balance because of dizziness or do you ever lose consciousness?

Yes ☐ No ☐ Do you have a bone or joint problem that could be made worse by a change in your physical activity?

Yes ☐ No ☐ Is your doctor currently prescribing drugs (for example, water pills) for your blood pressure or heart condition?

Yes ☐ No ☐ Do you know of any other reason why you should not do physical activity?

If you answered YES to one or more questions:

Your physician must complete our medical release form prior to using our facilities and programs. With your physician's approval you may be able to do any activity you want as long as you begin slowly and build up gradually. Or, you may need to restrict your activities to those that are safe for you. Talk with your doctor about the kinds of activities you wish to participate in and follow his/her advice.

If you answered NO honestly to all PAR-Q questions, you can reasonably be sure that you can:

Start becoming more physically active - begin slowly and build up gradually. This is the safest and easiest way to go.

Delay becoming more active if:

If you are not feeling well because of temporary illness such as a cold or a fever - wait until you feel better.
If you are or think you may be pregnant, talk to your doctor before you start becoming more active.

I have read, understood and completed this questionnaire. Any questions that I had were answered to my full satisfaction.
