TURN OFF TRANSLATIONS IN GOOGLE CHROME

This document provides the steps necessary for turning off the automatic translation feature of **Google Chrome** on your device.

HOW TO DISABLE AUTOMATIC TRANSLATION IN GOOGLE CHROME

From a Google Chrome internet browser window, do the following:

1. Click on the **three dots** button at the top-right of the browser window.
2. Click the **Settings** menu item.
3. In the search bar at the top, enter the following text: **"translate"**
4. Click on the **Language** item to expand it.
5. Click the toggle button to the right of the **Offer to translate pages that aren't in a language you read** option to toggle it on or off (colored = on; white = off).

If you need technical assistance with this or have any other technological needs, submit a help request to <https://helpdesk.fau.edu>.
