EXPERIENCE

Department of Psychology, Florida Atlantic University

Research Assistant

May 20XX – Present

Boca Raton, FL

- Assist a Professor in their current research of how a child's learning environment can affect their language development by working with a sample of about twenty children with age ranges of 2 to 10 years old
- Administer assessments to examine and record any observations relevant to the research
- Analyze previous research done on this topic to be informative of the subject and to come up with new ideas of how to best obtain information

Lakeview Center

Family Services Counselor

September 20XX – December 20XX

Pensacola, FL

- Observed children and families in their homes/placements or other surroundings
- Assessed children and families' behaviors, developmental levels, physical development, social development and mental state in order to make a decision or recommendation to the team (and the court) as to the best placement for the child
- Develop petitions, judicial reviews, recommendations, and case plan recommendations for the judge to consider
- Proposed courses of action for the court to take based on individual needs of children and their families

A Healthy Mind for You, Inc.
