AI @ FAU

Did You Know? FAU has a comprehensive AI hub to supercharge your work and learning

If you haven't visited **www.fau.edu/ai** yet, you're missing out on a treasure trove of resources designed to help you harness the power of <u>artificial intelligence</u> for your needs whether you're a student, faculty member, or staff.

For Faculty: The AI PLAIGROUND was created collaboratively by the Center for Online and Continuing Education and the Office of Information Technology. This resource offers pre-created assignments, focused Faculty Lounge Live sessions, and a professional development series. This is peer-to-peer learning at its finest, helping you integrate AI into your teaching toolkit.

For Students: Check out the Rubin and Cindy Gruber Sandbox, a 3,400-square-foot experimental AI lab in FAU Libraries. This state-of-the-art space is open to students of all levels and disciplines. Plus, you can explore AI-integrated programs and courses to build career-ready skills. Already, FAU students are making waves! One recently won the statewide Governor's Cup Competition with an AI-powered fire code system!

For Staff and Everyone: The site connects you to training options for learning Generative AI basics, introduces popular AI tools, and showcases cutting-edge research happening right here at FAU from distributed AI systems for edge computing to sign language AI translation and fraud detection innovations.
