Office for Academic & Student Services

Our Advisors Sita & Tim teach the FIG course!

College of Education First-Year Interest Group SLS 1411

The FIG course guides students through four key education career paths—Elementary, Secondary, Exceptional Student, and Early Care & Education—while offering strategies for success at FAU's College of Education. It's open to first-year Education majors and undecided students.

We would like to share some interesting statistics with you!

- **85% of the Fall 2024 FTIC cohort (2,865 of 3,366 students) are enrolled for Fall 2025.**
- **80.8% of Education majors (50 of 74 students) from this cohort are continuing their educational journey with us.**

As our college actively participates in various recruitment and student success initiatives, we hope to see a continued increase in both student enrollment and retention.
