

Master's Degree in SPECIAL EDUCATION APPLIED BEHAVIOR ANALYSIS

THE PROGRAM

The Master's Degree in special education with a concentration in **APPLIED BEHAVIOR ANALYSIS (ABA)** is a fully online graduate degree. The rich curriculum provides students with foundations and applications of ABA principles, including, but not limited to, the design and implementation of intervention strategies to teach socially valid behavior, intended to increase social participation and enhance quality of life.

The well organized, fast-track coursework prepares behavior-analytic professionals to work/consult in schools, early intervention agencies, community/residential settings and universities. Full-time students can complete this degree within 20-24 months.

The knowledge and skills gained from the program serve as the foundation and preparation for the Board Certified Behavior Analyst® (BCBA) examination. Our program meets the behavior-analytic coursework requirements for those pursuing the BCBA Pathway 2 eligibility route. Additional requirements by the **Behavior Analyst Certification Board (BACB®)** include supervised fieldwork experience, degree status and examination. Get full details on their website at www.bacb.com.
