TEACHING

Florida Atlantic University, Department of Curriculum and Instruction Educational Psychology Program Area

Educational Psychology (EDF 6229): Application of psychological principles and related research to assist teachers in promoting achievement and progress toward educational goals.

Motivational Theories in Educational Psychology (EDP 6218): Explores the application of motivational principles to educational settings, to assist educational professionals in promoting and maintaining student motivation. Emphasis placed on learners' internal motivation, including students' goal orientations and mindset, self-efficacy, self-regulated learning, and resilience. Both instructional influences and school family partnerships will be discussed.

Human Development: Applications for Education (EDF 6113): Explores human development from infancy through adulthood with a focus on its relevance for educational contexts. Topics include physical, cognitive, social, emotional, and moral development. Implications of developmental theories for curriculum, instruction and classroom management are discussed.

Learning and Cognition in Education (EDF 6142): Examination of the influence of applied cognition and learning theories to enable educational practitioners to understand and assist students in the learning process more effectively. Formerly *Thinking Processes and Styles*.

Personality Theories in Education (EDF 6339): Research in personality development, personality theories, and social-emotional learning as applied to educational settings to assist educational professionals in promoting student learning. Formerly *Concepts of Self*.

Applied Learning Theory (EDF 3210): Factors influencing the general and special learner and the learning process. Implications of learning theories for instruction and classroom management. Recent research as reflected in the knowledge base and applied to the classroom.

Special Topics: Human Development: Applications for Education (EDG 5931): Explores human development from infancy through adulthood with a focus on its relevance for educational contexts. Topics include physical, cognitive, social, emotional, and moral development. Implications of developmental theories for curriculum, instruction, and classroom management are discussed.

Directed Independent Study in Learning and Cognition (EDG 6906): Supervision of students in an investigation stemming from current perspective and recent research in cognitive theory culminating in the students' development of an original research manuscript focusing on learning and cognition as relates to the field of education.

Course and Program Development

High Quality Online Course Design and Development: Successfully completed the online course development and internal review process with the Center for Online and Continuing Education for EDF 6229, Educational Psychology. Certificate received March 9, 2023. (2022-2023)

Revised Master's in Educational Psychology Program: Spearheaded updates to program's required course lineup and revised course titles and catalogue descriptions for two program courses. (2020-2021)

Developed New FAU Course: Motivational Theories in Educational Psychology (EDP 6218). Explores the application of motivational principles to educational settings, to assist educational professionals in promoting and maintaining student motivation. Emphasis placed on learners' internal motivation, including students' goal orientations and mindset, self-efficacy, self-regulated learning, and resilience. Both instructional influences and school family partnerships will be discussed. (2019–2020)

Transitioned Master's in Educational Psychology to a Fully Online Degree. Secured approvals to make this a fully online degree listed with the Center for eLearning. (2019)

Helped Advance Stand-alone Master's in Educational Psychology: Principally involved in revising former Master's in Social Foundation (Educational Psychology specialization) to the new Master's in Educational Psychology program. Included changes to program requirements, collecting data on student interest in program, creating two new graduate Educational Psychology courses, revisions to syllabi, standards, and assisting in the paperwork for committee review. (2010-2015)

Assisted in Developing New FAU Course: Field Project in Educational Psychology (EDP 6944). Individually designed according to student professional goals, course focuses on extending theoretical knowledge in educational psychology through a field-based experiential capstone learning project. (2013-2014)

Revised Existing Course: Adolescence and Young Adulthood in Educational Psychology (EDF 6138). Updated course listed in catalogue but not taught in many years. Focus is on human development from puberty through young adulthood, including physical, cognitive, social, emotional, and moral development to enable teachers to understand and assist student learning in secondary and higher education. (2013- 2014)

Developed New FAU Course: Human Development: Applications for Education (EDF 6113). Explores human development from infancy through adulthood with a focus on its relevance for educational contexts. Topics include physical, cognitive, social, emotional, and moral development. Implications of developmental theories for curriculum, instruction, and classroom management are discussed. (2010)

Adapting Educational Psychology Coursework for Online Learning Environment. To reach FAU's students across campuses, I worked with Dr. Willems to develop effective methods for instructing many graduate educational psychology courses in the distance-learning environment. I also initiated online offerings of the undergraduate educational psychology course. (2008–2009)
