

## Problems Faced by Black Gay Students in Education

Robert Kvasnack

Faculty Sponsor: Dr. Angela Rhone

This paper is a literature review on the topic of the discrimination and violence faced by African American male students who admittedly or secretly engage in same-gender sexual relations. The influence of continental African culture on the sexual behavior of African American gay males is presented and discussed. Based on the literature, questions as to possible solutions for improving the learning environment of these boys and men are raised.
