## About Zoom

Zoom is the leader in modern enterprise video communications, with an easy, **reliable cloud platform** for video and audio conferencing, collaboration, chat, and webinars across **mobile devices, desktops, telephone**s, and room systems. Founded by vice president of Cisco another tech company. Cisco develops, manufactures and sells networking hardware, software, telecommunications equipment and other high-technology services and products. With its **300 Million users and 6000 servers** this platform has created a well-established community amongst businesses and schools

Infrastructure solutions

Zoom continuously relies **on Amazon Web Services** to accommodate an increase from 10 million daily meeting participants in December 2019 to more than 300 million a day regularly since April 2020. Zoom selected **Oracle Cloud Infrastructure** for its advantages in performance, scalability, reliability, and superior cloud security.
