Passcode: B62qw3

### **Dr. Colleen Lewis**

Associate Professor of Computer Science,  
University of Illinois Urbana-Champaign

---

### **ABSTRACT**

Teaching advice often comes in the form of transformative approaches that seem great for students but would easily double or quadruple our workload! We'll discuss teaching practices that you can integrate into your classroom without reinventing the wheel and sacrificing your work-life balance. Most importantly, these are practices that can help everyone and have additional benefits for students of color, women, and first-generation college students.

### **BIOGRAPHICAL SKETCH**

Dr. Colleen Lewis is an Associate Professor of computer science (CS) at the University of Illinois Urbana-Champaign. Dr. Lewis was previously the McGregor-Girard Associate Professor of CS at Harvey Mudd College. At the University of California, Berkeley, Dr. Lewis completed a PhD in science and mathematics education, an MS in computer science, and a BS in electrical engineering and computer science. Her research seeks to identify and remove barriers to CS learning and understand and optimize CS learning. Dr. Lewis curates CTeachingTips.org, a NSF-sponsored project for disseminating effective CS teaching practices. Dr. Lewis has received the NSF CAREER Award, the NCWIT.org Undergraduate Mentoring Award and the AnitaB.org Emerging Leader Award for her efforts to broaden participation in computing.
