FLORIDA ATLANTIC UNIVERSITY
COLLEGE OF ENGINEERING AND COMPUTER SCIENCE

Study Abroad
Opportunities

Invest in Engineers of Tomorrow

At Florida Atlantic University's College of Engineering and Computer Science, students are not only building solutions for today's challenges, they are preparing to lead in a global world.

Through FAU's Education Abroad, Engineering Students Can:

- Earn academic credit while studying internationally
- Participate in projects that tackle real-world engineering challenges abroad
- Gain cultural competencies and adaptability needed in today's workforce
- Build resilience, creativity, and global collaborations that spark innovation

Why It Matters

- Study abroad experiences are transformative. They allow future engineers to expand their horizons, learn diverse approaches to problem-solving, and return with skills that strengthen both their careers and their communities.

How You Can Help

- Many students have the passion to study abroad, but financial barriers stand in the way. Your support makes these life-changing opportunities possible. By funding study abroad scholarships, you are investing in the next generation of innovators who will design solutions that transcend borders.

Support Study Abroad

- Your gift today empowers Florida Atlantic Universtiy students to become globally minded leaders in engineering and computer science.
