This form should be used by the parent. The parent indicated on the 2026-2027 FAFSA that they had an amount of college grants, scholarships, or AmeriCorps benefits reported as income to the IRS in 2024. Most parents should leave this question blank because even if they are students themselves, most scholarships and grants are not taxable, unless those award amounts exceed the total amount the parent paid for their own tuition, fees, books, supplies, and required equipment. Typically, this isn't the same amount as the adjusted gross income. For more information, visit the [Federal Student Aid help page](#).

The dependent student will not receive a financial aid disbursement until this form is submitted and reviewed. The reported amount of parent's taxable scholarships and grants may impact a student's financial aid eligibility and result in a modification to the student's financial aid offer.
