## **Curricular Practical Training Application**

Curricular Practical Training (CPT) must be an "integral part of an established curriculum," and is defined as "alternate work/study, internship, cooperative education, or any other type of required internship or practicum offered by sponsoring employers through cooperative agreements with the school." (8 C.F.R. 214.2 (f) (10) (i)). CPT can be authorized for:

- 1. An internship/practicum course or other type of practical/field experience within a student's degree program or professional internship course offered by the Career Center.
- 2. For the collection of research for thesis or dissertation must be enrolled for thesis/dissertation credit and submit letter of support from academic adviser stating how the CPT will benefit thesis/dissertation research topic.

### **CPT Authorization Requirements**

- Employment offer is required **prior** to CPT approval
  - A change in employer requires a new CPT application and ISS approval.
- I-20 with CPT authorization must be obtained from ISS prior to the employment start date. Working prior to receiving CPT authorization constitutes unauthorized employment.
- ISS will authorize two semesters of CPT per degree level. Students who wish to repeat CPT beyond two semesters may do so when required for degree completion. New employment learning objectives must be established per CPT authorization.
- CPT may be authorized part-time (20 hours per week or less) or full-time (more than 20 hours per week). Parttime CPT does not affect eligibility for Optional Practical Training (OPT). Full-time CPT reaching a total of 12 months will cancel eligibility for OPT.
