Honors Program in Accounting with Option					(TERM & YEAR)					
for Combined B.B.A./M.AC. Degree				Change Program*	Fall 2023					
Please explain	the requested ch	ange(s) and offe	r rat	tionale below or on an	attachment.					
This proposal is to change the Honors in Major Accounting Scholars Program to included a combined B.B.A/Master of Accounting option. Students will still follow and meet the Honors in Major requirements. Some students receiving the Honors in Major will not pursue a master's degree but for those that do, we wish to offer this combined degree benefit. Most students in this program are highly motivated, typically do an internship, seek licensure as a Certified Public Accountant (CPA), and work in their first jobs for a public accounting firm. Thus, they are eager to studying for the CPA exam and start their careers soon after completing the internship. This combined program will help them make that goal a bit easier and more achievable. We also hope that it motivates other students to consider the Honors in Major program. In recent years, the number of students in the program have dropped so we have been considering ways make the program more attractive, maintain high academic integrity, and prepare students for careers in public accounting. Please see the attachment for more explanation.										
		g programs must be a			owing the new or proposed changes.
