CON Committee on Programs Motion Form

Date	12/12/2025	Maker	Masters Committee	Second	[If coming from an academic committee a 2 nd is not required]
Title of Program: Graduate Programs Special Topics Lab Course Motion Language: Approval of the Graduate Special Topics Lab course (NGR 6931L)					
Start Date	Fall 2025				
Rationale: include program(s)/track(s) impacted	When there are changes in the curriculum, lab course credits may be affected. Currently the NP program changed the credits for 6605L to 4 credits as the new plan of study. A group of students are on the old plan of study and just require 3 credits. This would need to be offered as a special topics course for 3 credits. This will also support future curriculum changes where clinical courses may be affected by changes in credits and students are on a different plan of study.
