[Link to Crisis and Disaster Management Certificate](#)

[Link to Innovation Entrepreneurship Certificate](#)

The principal objective of the Master of Business Administration (M.B.A.) Program is to advance the quality of business management. The program provides advanced management education in an environment that encourages students to extend their leadership capabilities. It enables students to gain broad managerial skills and to develop specialized expertise in a business discipline that best suits their career aspirations. This program also available online.

.....

### Concentrations

Concentrations are not required and may not be desirable for a student seeking a well-rounded, diverse skill set. For students who desire the depth of a concentration, all concentrations within the M.B.A. program consist of the basic core as listed above (31 credits) and concentration electives (12 credits). In order to receive certification in a concentration, all coursework must be completed with no grade less than a "B-" and an average of 3.0 for the 12 to 15 credits of the concentration. Students who do not elect a concentration will be granted a General M.B.A. Concentrations are not designated on a diploma, but they are noted on the transcript.

.....

**The Business Analytics Concentration:** Students electing the Business Analytics concentration take the basic core as listed above and four of the following elective courses:

ISM 6136, Data Mining and Predictive Analytics

[ISM 6217, Database Management](#)
