SUBJECT: MAC Concentration in Professional Accounting

The School of Accounting wishes to add a concentration within the Master of Accounting degree program.

The concentration is titled "Professional Accounting" and is designed for students and professionals seeking preparation to enter the public accounting profession. The concentration will be offered through the School of Accounting Executive Programs (SOAEP). This concentration differs from the SOAEP's existing concentrations of forensic accounting and business valuation; specifically, it is designed for a much broader, well-established market than the niche areas of forensic accounting and business valuation.

The Master of Accounting degree is a 10-course degree program of 30 semester hours. If a concentration is specified, the number of concentration courses is four (4) and the core comprises five (5) courses, plus a graduate communications class, for a total of 10 courses. The five core courses are:

Course Number	Course Title	Credit Hours
ACG 6135	Advanced Accounting Theory	3
ACG 6138	Advanced Financial Reporting and Accounting Concepts	3
TAX 6025	Concepts of Federal Income Tax	3
ACG 6475	Advanced Accounting Information Systems	3
ACG 6655	Advanced Auditing Theory and Practice	3

In addition to the core accounting classes listed above, the student earning the concentration in professional accounting will take four (4) of the following courses, plus a graduate business communications class:

Course Number	Course Title	Credit Hours
ACG 6625	IT Auditing	3
ACG 6175	Financial Statement Analysis	3
Plus two of the following courses*:		
BUL 6332	Business Law for Professional Accountants	3
ACG 6686	Accounting Fraud Examination Concepts	3
ACG 6595	Accounting and Governmental Regulation	3

*Determined in consultation with the student's advisor.

This concentration does not require: new resources, faculty positions, or existing course changes. It will require the creation of a new course, Business Law for Professional Accountants.
