DSW Program Mission

The DSW program provides doctoral-level practitioners with educational experiences that will allow them to engage in advanced clinical social work practice, conduct advanced clinical research, teach evidence-based practice courses, and assume leadership roles in the social work profession. Upon completion, DSW graduates will be able to:

- Integrate social work, social, and behavioral sciences with other disciplines as the basis for the highest level of evidence-based social work practice.
- Demonstrate professionalism, leadership, ethical principles, and scientific integrity in advanced social work practice, education, and research.
- Provide collaborative leadership in the development of social work evidence-based practice models and standards of care for diverse populations.
- Generate client, systems, practice, and outcomes research.
- Analyze theory, empirical research, and other evidence to guide improvements in social work practice.
- Utilize information systems and technology to enhance social work education and practice.

Course Description

The course will review areas of research in clinical social work utilizing qualitative methods, including design methods, data collection and analysis used in qualitative research. The course will provide information relevant to publishing qualitative research for strengthening social work practice.

Relevance to Educational Program

Students preparing to be doctoral level social work clinicians are expected to understand various means for evaluating clients' perspectives and experiences in clinical work. One specific method of research analyses is through qualitative research. In order to maximize the effectiveness of clinical interventions, social workers must be knowledgeable in the process of qualitative research. This course will specifically focus on understanding the benefits of qualitative research and also how qualitative research can be used in clinical practice.

Course Objectives

Upon successful completion of this course, students will be able to:

- Demonstrate the ability to read, describe, interpret, critique, and utilize qualitative research for social work.
- Select and define qualitative research problems relevant to the field of clinical social work practice.
- Use interviews, observations, document analysis, and varied tools for gathering qualitative data.
- Apply analytic approaches to identify codes, themes, categories and other qualitative findings.
- Identify characteristics of high standards in qualitative research.
- Present qualitative research and conclusions for dissemination and use in clinical practice.

Required Textbooks/Readings

The textbooks required for this course are:

Creswell, J.W. (2013). *Qualitative inquiry and research design: Choosing among five approaches*. Thousand Oaks, CA: Sage.

Silverman, D., & Marvasti, A. (2008). *Doing qualitative research: A comprehensive guide*. Thousand Oaks, CA: Sage.

These books are available at the campus bookstore.

Other course readings may be distributed in class. Please visit the **Blackboard Web site** for this course at <http://blackboard.fau.edu> for additional information. IMPORTANT: Blackboard uses the email addresses assigned to you by FAU (see <http://myfau.fau.edu> or <http://mail.fau.edu>). If you are experiencing problems logging onto MyFAU, your email account, or Blackboard, you can contact the FAU helpdesk at (561) 297-3999.

Safe Assign

Students agree that by taking this course all required papers may be subject to submission for textual similarity review to SafeAssign for the detection of plagiarism. All submitted papers will be included as source documents in the SafeAssign reference database solely for the purpose of detecting plagiarism of such papers.

Course Assignments and Grading

[Grade overview](#)

GRADING/EVALUATION:

Grades will be based on the following points:

Qualitative Journal Articles: Annotated Bibliography	50 points
Research Proposal	100 points
Proposal Presentation	100 points
In class activities	50 points

Total Possible Points	300 Points
-----------------------	------------

COURSE ASSIGNMENTS

Short in-class assignments, quizzes – Attendance is expected and random days will include points for in-class activities, short quizzes, discussion participation, etc. (50 points)

Annotated bibliography – Students will identify 5 qualitative articles (peer reviewed) around a clinical social work topic of personal interest. For each article, students will include a description and critique. Students will present this research in week 5 to the class. (50 points)

Qualitative Research Proposal: Either individually or in groups of no more than three, students will develop a research proposal for a qualitative study. Students will be allowed to select the type of qualitative research study design they will utilize. In this research proposal, students will include a research purpose statement, rationale for the research study and protocol for completing the study. (100 points)

Qualitative Research Presentation: Students will present their research proposal to peers. The project includes a discussion of qualitative method chosen and the supporting rationale, potential challenges, and the knowledge expected. 45 minutes. (100 points).

The following is the criteria we use for evaluating the **final papers, presentations and annotated bibliographies.**

Report on Final Papers:

<i>Name of Students:</i>	
<i>Title of Paper:</i>	
<i>Mark for Paper:</i>	
<i>Mark for Oral</i>	

Presentation: Mark for Participation:

CODE OF ACADEMIC INTEGRITY

Students at Florida Atlantic University are expected to maintain the highest ethical standards. Academic dishonesty, including cheating and plagiarism, is considered a serious breach of these ethical standards, because it interferes with the University mission to provide a high quality education in which no student enjoys an unfair advantage over any other. Academic dishonesty is also destructive of the University community, which is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with academic dishonesty. For more information, see http://www.fau.edu/ctl/4.001_Code_of_Academic_Integrity.pdf.

ADDITIONAL INFORMATION ON STUDENT RIGHTS and RESPONSIBILITIES

For additional information on student rights and responsibilities, please see the FAU Catalog at <http://www.fau.edu/registrar/universitycatalog/welcome.php>, DSW policies at <http://www.fau.edu/ssw/dsw>.

Dear Dr.

We are sending you this email and attachments because of your involvement at FAU in doctoral education. As you might be aware, the Board of Governors approved the Doctor of Social Work (DSW) degree this past winter. This degree program seeks to train clinical social work practitioners already possessing an MSW (Master of Social Work) degree. The program seeks to develop advanced clinical social work practitioners and clinical social work researchers. We are admitting the first cohort this fall. We believe these clinical scholars will advance professional social work and provide a much needed clinical faculty for current social work programs. Most of the courses for the first year of study have made their way through the GPC and various other committees this past spring. The School of Social Work plans to present the remaining courses to the GPC and the other committees early this fall. These are courses for students who already possess a Master of Social Work degree and are licensed/license-eligible as social workers. Students from other disciplines are not accepted into the DSW program.

The Course Proposal form from Graduate Programs requests that we consult and list all departments that might be affected by the new courses and that we provide their comments, support, etc. I would appreciate that you direct any concerns to me at your earliest convenience.

I am attaching syllabi for the new courses that are being submitted for approval.

1. Advanced Clinical Social Work Research & Statistics
2. Advanced Clinical Social Work Capstone 1
3. Psychopathology in Advanced Clinical Social Work Practice
4. Advanced Clinical Social Work Evidence-based Practice with Families and Couples
5. Advanced Clinical Social Work Evidence-based Practice with Groups
6. Advanced Clinical Social Work Capstone 2
7. Advanced Clinical Social Work Practicum
8. Advanced Clinical Social Work Seminar

9. Advanced Clinical Social Work Capstone 3
10. Emerging Theories and Methods in Advanced Clinical Social Work
11. Qualitative Research in Clinical Social Work

Thank you in advance for all your help and support with this important process.
