ATLANTIC UNIVERSITY				
Program Name		New Program*	Effective Date (TERM & YEAR)	
Master of Science with Major in Computer Engineering		<b>✓</b> Change Program*	Fall 2021	
Please explain the requested change(s) and offer rationale below or on an attachment.				
EEE 4541 is added as an alternative to STA 4821. With this change students can take either EEE 4541 or STA 4821 to meet program requirements.				
*All new programs a	and changes to existing programs must be acco	ompanied by a catalog entry sh	owing the new or proposed changes	
Faculty Contact/Email/Phone		Consult and list departments that may be affected by the change(s) and attach documentation

## Master of Science with Major in Computer Engineering

## **Admission Requirements**

Applications for admission to the master's program are approved by the University upon the recommendation of the department. All applicants must submit with their applications the official transcripts from previous institutions attended and have official GRE scores forwarded to the University. Applications for admission are evaluated on an individual basis. As a minimum, applicants are expected to meet the following requirements. Students with non-engineering bachelor's degrees, click here for additional requirements.

- 1. A baccalaureate degree in Engineering or a related field. (Students who do not have a computer engineering background will be expected to take additional courses; see link above);
- 2. At least a 3.0 (of a 4.0 maximum) GPA in the last 60 credits attempted prior to graduation;
- 3. Submission of the Graduate Record Examination (GRE) score is required. GRE scores more than five years old are normally not acceptable. The GRE requirement is waived for any student who has a baccalaureate degree from FAU's Department of Computer & Electrical Engineering and Computer Science with a GPA of at least 3.25 (out of a possible 4.0) in the last 60 credits attempted prior to graduation;
- 4. International students from non-English-speaking countries must be proficient in written and spoken English as evidenced by a score of at least 500 (paper-based test) or 213 (computer-based test) or 79 (Internet-based test) on the Test of English as a Foreign Language (TOEFL) or a score of at least 6.0 on the International English Language Testing System (IELTS).

Applicants are expected to have taken the following prerequisite courses (or equivalents) before pursuing a master's degree. In some cases, prerequisite courses may be taken after admission to the graduate program. Equivalent FAU courses follow.

Introduction to Microprocessor Systems	CDA 3331C
Structured Computer Architecture	CDA 4102 or
CAD-Based Computer Design	CDA 4204
Electronics 1	EEE 3300 or
Introduction to VLSI	CDA <b>4210</b>
Data Structures and Algorithm Analysis	COP 3530
Calculus with Analytic Geometry 1	MAC 2311
Calculus with Analytic Geometry 2	MAC 2312
Stochastic Models for Computer Science	STA 4821 <u>or</u>
Stochastic Processes and Random Signals	EEE 4541
