Graduate Programs

College of Engineering and Computer Science

Degree: Doctor of Philosophy (Ph.D.)
Major: Ocean Engineering

Important information about applying to Graduate School:

✓ Official Transcripts: Official Transcripts and/or Official Foreign Credential Evaluations must be received from each college or university attended. For more information on how to send transcripts, please visit our website: fau.edu/graduate/apply.

✓ Supporting documentation: Supplemental documents should be uploaded as separate files as part of the online graduate application. NOTE: You will not be able to submit your application until all the supplemental materials are uploaded.

✓ Conduct: A "yes" answer to either of the conduct questions on the online application will require a written explanation. Additional information may be requested when your application is under review. Applications will not be fully processed until all conduct issues are cleared.

✓ Application status: Once your application has been submitted, you can check your application status online to ensure transcripts and test scores have been received.

✓ Residency classification: Your residency classification automatically defaults to non-Florida. After you are admitted, the residency officer will request additional documents by email if needed.

Admission Requirements

Domestic Students

• Master’s degree in Engineering, Science, or Mathematics
• A GPA of 3.0 in the last 60 credits of work attempted
• GRE is required; there are no minimum sub-score requirements

International Students

• Master’s degree in Engineering, Science, or Mathematics
• A GPA of 3.0 in the last 60 credits of work attempted
• GRE is required; there are no minimum sub-score requirements

Application Deadlines

Domestic Students
Fall: July 1
Spring: November 1
Summer: April 1

International Students
Fall: June 1
Spring: October 1
Summer: March 1

Contact/Information

Anastasia Calnick, Assistant Director, Academic Programs
College of Engineering and Computer Science
Engineering West (EG-36), Room 102

Research Areas:
- Autonomous Surface and Underwater Vehicles
- Underwater Imaging and Communication
- Physical Oceanography
- Marine Renewable Energy
- Signal Processing
- Sonar and Transducer System Design
- Bio-inspired Engineering and Design
- Corrosion and Cathodic Protection
- Nano-structured Materials
- Offshore and Ship Structures
