Field Education Requirements

Prior to applying to Field Education, students must exhibit appropriate professional behavior in the academic setting. Students found to be out of compliance with the NASW Code of Ethics will not be permitted to enter the field. Academic credit for previous work experience will not be given in lieu of the Field Education internship.

Students will review a mandatory field orientation the spring/summer semester prior to entering the field and meet individually with field faculty. See www.fau.edu/ssw for complete eligibility criteria.

The internship for Generalist students involves 16 hours per week of generalist practice under the direction of an agency-based field instructor and attendance at a three-hour-per-week integrative seminar. The Generalist student participates in the Foundational Level Office of Interprofessional education and practice in the Fall and Spring semesters. The internship for Specialist and Advanced Standing students consists of approximately 20 hours per week of advanced clinical practice under the direction of an agency-based field instructor and attendance at a three-hour-per-week integrative seminar. The Specialist and Advanced Standing Student participates in two Interprofessional activities, one in the Fall and one in the Spring. Dates will be shared in advance for all Interprofessional activities and students are expected to make arrangements to be in attendance. Part-time Specialist and Advanced Standing students have the option to extend their internship beginning in the fall of Year 3 and completing 16 hours per week through the following summer semester, graduating in August.
