The principal objective of the Master of Business Administration (M.B.A.) Program is to advance the quality of business management. The program provides advanced management education in an environment that encourages students to extend their leadership capabilities. It enables students to gain broad managerial skills and to develop specialized expertise in a business discipline that best suits their career aspirations. This program also available online.

.

Concentrations

Concentrations are not required and may not be desirable for a student seeking a well-rounded, diverse skill set. For students who desire the depth of a concentration, all concentrations within the M.B.A. program consist of the basic core as listed above (31 credits) and concentration electives (12 credits). In order to receive certification in a concentration, all coursework must be completed with no grade less than a "B-" and an average of 3.0 for the 12 to 15 credits of the concentration. Students who do not elect a concentration will be granted a General M.B.A. Concentrations are not designated on a diploma, but they are noted on the transcript.

.

The Business Analytics Concentration: Students electing the Business Analytics concentration take the basic core as listed above and four of the following elective courses:

ISM 6136, Data Mining and Predictive Analytics

ISM 6404, Introduction to Business Analytics

ISM 6405, Advanced Business Analytics

ISM 6555, Social Media and Web Analytics

QMB 6303, Data Management and Analysis with Excel

ISM 6427C Business Innovation with Artificial Intelligence

.

The Management Information Systems Concentration: Students electing the Management Information Systems concentration will take the basic core as listed above and four of the following: ISM 6508, <u>ISM 6316MAN 6581</u>, ISM 6328, ISM 6368, ISM 6509, <u>ISM 6427C</u>, <u>ISM 6455</u>

...

The Operations Management Concentration: Students electing the Operations Management concentration will take the basic core as listed above and four elective courses as follows: MAN 6525, Business Process Improvement Management; MAN 6581, Project Management; MAN 6596, Supply Chain Management; and one class from the following list: ISM 6508, MAR 6837 or other approved Special Topics courses.
