

Financial Technology (“FinTech”) Graduate Certificate

The FinTech Graduate certificate is jointly offered by the Department Finance and the Department of Information Technology and Operations Management. These programs enhance the qualifications of students pursuing careers in fields related to business, finance, and information technologies. Students acquire knowledge and skills in online and digital business and digital finance, as well as in developing, analyzing, and enhancing a company’s ability to access capital through financial technologies. Also, students will acquire knowledge and skills pertinent to use of financial technology in trading. Professions and majors benefiting from the minor and certificate include finance, information technology, management information systems and others.

The FinTech graduate certificate will be granted to a student who completes four courses as indicated in the list below.

Admission

Open to students and professionals who have at a minimum a bachelor's degree in Business or in a related field and a GPA of at least 3.0. Students must satisfy the prerequisites for each course in the program. All four courses must be completed with a GPA of 3.0 or better. All course materials are in English; all international students must demonstrate proficiency in English to enter the program.
