

TO REGISTER FOR COURSES:

Log into **MyFAU**; Click **FAU Self-Service** (left side of screen); Click **Student Services**. Be sure to **check for holds** prior to registering. For instructions, see <http://www.fau.edu/uas/registration.php>

Having trouble registering for any courses?

Some courses have restrictions that can be overridden simply by contacting the instructor, which you can do by emailing them. You can find the email of the instructor by clicking on the CRN number of the course in the Banner online course schedule. If you have difficulty contacting the instructor, then notify David Flanigan at flanigan@fau.edu and indicate your Z number and which course number and CRN you want to enroll in and he can try to contact the instructor.

Course Notes for Fall 2021:

PSY 4936 Honors Psychology and Law MW 2-3:20pm (3 cr., Dr. Rice)

In this course, we will examine the psychological approach to law and the role psychologists play in the legal system. We will analyze the psychological factors involved in criminal behavior, policing, interrogation techniques, eyewitnesses, juries, and more. Discussions will involve current topics such as crime control, police reform, and alternative sentencing. You will learn how to give a psychological opinion as a "friend of the court" in an "amicus curiae" brief. You will also prepare a power point presentation as an expert witness for the defense or prosecution in one of the areas covered. This course will develop a deeper understanding of the criminal justice system for those interested in pursuing a career in the legal profession or forensic psychology.

PHH 3930 Honors History of the Soul (WAC) W 6-9:30pm (3 cr, Dr. Baima)

"Body, mind, and soul" is a common phrase, but what exactly is the relationship between these three things? Are they aspects of the same thing, or are they completely different entities? How are they connected? What are *you*? We will explore these and related philosophical questions by looking at the history of the concept of the soul and how it changed over time.

IDS 3932 Parks and Rec & Philosophy 1 credit team-taught class, TR 9:30-10:50am (Dr. Baima & Dr. Luria)

This class will examine philosophy, creative writing, rhetoric, and literature through the series *Parks & Recreation*.

IDS 3932 Modeling Biology - 1 credit team-taught class, W 2:00-4:50pm (Dr. Stamper and Dr. Welker) *Prerequisite: MAC 2311 Honors Calculus 1*

During the COVID-19 pandemic, epidemiology has gained prominence in public discussion. We aim to discuss the biological mechanisms that influence the spread of infectious diseases and introduce the

mathematical methods in which these mechanisms are modelled with ordinary differential equations. Analysis and numerical methods will be covered, including an introduction to mathematical programming using MATLAB.

AML 3121 Honors American Novel Since 1900 - National Book Award Winners and the Great American Novel - Dr. Sondra Bickham Washington, TR 11am - 12:20pm

What is the National Book Award and who selects winners? How does this small group of judges impact national and global readership, perspectives about the evolution of fiction, and appreciation for certain authors and subject matter? This fall, we will consider these questions as we read and analyze recent National Book Award winners in fiction. Also, we will examine how these texts affect our understanding of Great American Novels and their impact over the course of the last century.

New Minor Concentration in Digital Game Development

A Minor Concentration in Digital Game Development is now available at the Harriet L. Wilkes Honors College! Digital Game Development encompasses the entire process of digital game creation. In the context of this minor, Digital Game Development is closely linked to software creation. Students will learn to create and program digital games but also study technology, games, gamers, and digital cultures. Students pursuing this minor are expected to be invested in art, computer programming, and the humanities.

Please follow this link for a description of requirements:
