TO REGISTER FOR COURSES:
Log into MyFAU; Click FAU Self-Service (left side of screen); Click Student Services. Be sure to check for holds prior to registering. For instructions, see http://www.fau.edu/uas/registration.php

Having trouble registering for any courses?
Some courses have restrictions that can be overridden simply by contacting the instructor, which you can do by emailing them. You can find the email of the instructor by clicking on the CRN number of the course in the Banner online course schedule. If you have difficulty contacting the instructor, then notify David Flanigan at flanigan@fau.edu and indicate your Z number and which course number and CRN you want to enroll in and he can try to contact the instructor.

Course Notes for Summer 2022:

**DROSOPHILA**
**GENES AND BEHAVIOR**

**BSC4930-001**
- Learn about the use of fruit flies in scientific research
- Conduct experiments on how genes affect behavior
- Learn data acquisition and analysis from behavioral assays
- Create transgenic organisms and investigate disease models
- Conduct optogenetic experiments
- Use the skills learned in lab to conduct your own independent research project at the end of the semester!

**CRN 13072**
