

## Fall 2024 Course Notes

Course: Honors Comparative Physiology

Number: BSC 4930

Schedule: MW 11:00am-12:20pm

Description: Comparative Physiology will explore invertebrate and vertebrate physiological function. From metabolism to temperature regulation, osmotic balance, and circulatory transport, the course will delve into the physiological adaptations that allow animals to thrive in diverse environments.

Prerequisites: BSC 1010/L and BSC 1011/L
