ASCEND NEURO EXPLORERS

The ASCEND (Advancing STEM-Community Engagement through Neuroscience Discovery) "NeuroExplorers" program is a semester-long neuroscience learning opportunity at STEM Studio in Jupiter for kids grades 6-8 made possible by the Florida Atlantic University Stiles-Nicholson Brain Institute.

Led by professional neuroscientists and their trainees and using cutting-edge educational tools, including hands-on virtual and augmented reality applications, kids will be provided biweekly neuroscience lessons and activities at STEM Studio in Abacoa. In addition, kids will have the opportunity to learn outside STEM studio through virtual resources including podcasts featuring recent neuroscience discoveries, brain games, and 360° science videos. Kids will learn about neuroscience, with lessons building from cells to neural networks to brain disorders. Attendees will graduate as Jr. Neuroscientist and meet neuroscientists on a lab tour!

FULL PROGRAM
$50

SEPTEMBER	OCTOBER	NOVEMBER	DECEMBER
8 & 22	6 & 20	3 & 17	1 & 15

Program Time: **4:30-6:00pm**
Located at: **STEM Studio in Downtown Abacoa • 1209 Main St. #112 Jupiter, FL 33458**
