

FAU College of Medicine 2024-2025

Estimated Cost of Attendance

Students' Cost of Attendance (COA) budgets are developed each academic year by the Office of Medical Student Financial Aid. They include Tuition and Fees (as approved by FAU's governing boards); an allowance for books and supplies; and a cost of living allowance for housing and food, Transportation, and Personal Expenses (see definitions, below). COA's are estimated during the early awarding process and are subject to change once FAU's governing boards finalize each year's tuition and fee charges.

The COA, in conjunction with the students' Student Aid Index (SAI) from their FAFSA's, is used to both calculate financial aid eligibility and to give students an estimate of reasonable costs to attend the Charles E. Schmidt College of Medicine.

The standard student budgets, shown below, are based on the average expenses of a single student who shares expenses for a two-bedroom apartment. Costs for students' spouses and/or children are not included in the standard budget; those expenses are accounted for in the FAFSA's need analysis formula, which calculates the SAI.

Tuition and Fees

Tuition and fees are charged at a fixed annual rate. Half of the tuition and fees are billed at the beginning of the first semester, and half are billed at the start of the second semester. See "[Important Dates](#)".

Federal Student Loan Origination Fees are added as an additional allowance for students who borrow through the Federal Loan Programs, and incur those costs.

Books and Supplies

Books and supplies consist of required textbooks and diagnostic instruments, to include a stethoscope and reflex hammer, a lab coat in the M1 year, and

miscellaneous supplies. This allowance is estimated based on an annual survey of costs.

Housing

Off-campus Housing estimates are based on an average of rates obtained in an annual survey of local apartment complexes. An allowance for utilities (power, water, cable, internet, phone) is included in the estimate. Estimates are based on double occupancy.

On-campus Housing rates are calculated at the Innovation Village Apartment cost per semester for a 2 Bed/ 2 bath apartment. See [current on campus housing costs](#). All medical students who choose to live on campus are housed in the Innovation Village Apartments.

With Parents Housing estimates include an allowance for housing expenses (household operations, supplies, furnishings and equipment) and utilities (power, water, cable, internet, phone).

Food

Off-Campus and On-Campus Food estimates are based on the Cost of Food at Home data published by the United States Department of Agriculture, adjusted for the regional Cost of Living Index and inflation.

With Parents Food estimates are based on the Cost of Food at Home data published by the United States Department of Agriculture, adjusted for the regional Cost of Living Index and inflation.

Transportation

The transportation allowance is an estimated cost for routine car maintenance, gas, and insurance.

M1 & M2 Students:

On-campus transportation is calculated as a prorated portion of the off-campus calculation to reflect reduced variable costs

Off-campus Transportation Fee estimates are based on the monthly vehicle operating costs for the Dade and Broward county region as listed in the [IRS Local Transportation Standards publication](#).

M3 & M4 Students:

As daily travel is required to hospitals both in and outside the local area, an average distance to and from the FAU Schmidt College of Medicine is calculated for the year. This average is multiplied by the current [IRS mileage rate](#) to determine transportation cost for the year.

Personal Expenses

Personal Expense estimates are based on U.S. Bureau of Labor Statistics Consumer Expenditure data for the Miami Area, adjusted for inflation. A personal allowance is calculated for expenses such as: cell phone, clothing, haircuts, laundry, cleaning supplies, dental visits, etc. It also includes an allowance for the required Health, Disability and Professional Liability Insurances, as well as USMLE exam fees for M2 and M3 students.

Tuition and Fees are established by the FL State Legislature, FL Board of Governors, and the FAU Board of Trustees, and are subject to change.
