Your worldwide training partner of choice

# Technical Specifications

## Standard Equipment

CAE Juno wireless and tetherless manikin:  
medium and dark skin tones available

New software platform CAE Maestro –  
instructor driven

Includes 10 Simulated Clinical Experiences

- Chronic heart failure exacerbation
- Gastrointestinal bleed secondary to esophageal varices
- Skills validation
- Asthma management of patient in home care setting
- Postoperative care of the patient with complications: pneumonia
- Suctioning and tracheostomy care with hypoxia
- Basic assessment of the hip replacement patient
- Postoperative care of the patient with a ruptured diverticulum
- Seizure disorder and moderate learning disability
- Dementia and urinary tract infection in a patient with DNR orders

Electronic user guide

Single year CAE Value Assurance warranty

## Optional Equipment

Software compatible tablet

TouchPro wireless patient monitor

Interchangeable wound modules

Post-mastectomy module

Breast exam module

Fundus assessment module

## Optional Software

Six additional CAE Learning Modules available

## Manikin

64" H x 20.5" W x 10" D

(162.56 cm x 52.07 cm x 25.4 cm)

Approximate Weight = 50 lbs. (22.7 kg),  
varies depending on options

## Electrical

AC Input: AC 115-230VAC, 50/60Hz

Internal Batteries: 15V 3.20 Ah Lithium  
ion, rechargeable

Runtime: Approximately 4 hours

# Key Features

## Articulation

- Realistic articulation
- Range of motion in hips, knees, ankles, shoulders, elbows and wrist
- Cervical motion for practice of patient stabilization

## Airway

- Oral and dental hygiene
- Nasal packing
- Bag-valve-mask (BVM) ventilation
- Nasopharyngeal and oropharyngeal airway placement
- Endotracheal tube placement
- Tracheostomy tube placement
- Endotracheal tube and tracheostomy tube suctioning with fluids

## Breathing

- Manual bilateral chest rise and fall with BVM ventilation via face mask, endotracheal tube and tracheostomy tube
- Bilateral chest tube insertion for care and maintenance

## Cardiac (Live/Complete)

- Defibrillation and cardioversion via software
- 4-lead ECG monitoring with real equipment
- 12-lead dynamic ECG display

## Circulation

- Unilateral blood pressure measurement by auscultation and palpation
- Bilateral carotid pulses (manual)
- Unilateral radial and brachial pulses with programmable intensities (Live/Complete)
- Unilateral subclavian catheter insertion for care and maintenance

## Gastric

- Nasogastric tube insertion and gastric lavage and gavage with real fluids
- Ostomy care and irrigation of a variety of configurable stomas
- Enema administration with fluids

## Medication Administration

- Eye and ear irrigation
- Six intramuscular sites for medication administration in bilateral deltoids, bilateral vastus lateralis, ventrogluteal and dorsogluteal sites

## Urinary

- Urinary catheterization with fluids
- Interchangeable genitalia

## Vascular Access

- Unilateral IV cannulation at antecubital and dorsum of hand
- Fluid and medication administration
- Blood draw with vacuum sealed blood collection system

## Sounds (Live/Complete)

- Auscultation of normal and abnormal heart, lung and bowel sounds
- Prerecorded speech and vocal sounds
- Bidirectional audio communication between manikin and operator
