

# Store Settings Fields

---

## Store Settings Fields

FIELD NAME	DATA ENTRY INSTRUCTIONS
Do you want to organize the items you are selling into multiple categories?	If you would like to organize new charge items into categories, click on the <b>Yes</b> radio button. This is commonly used in eMarket sites when you have many items that you want to display to the payer. If you select this option, you will configure the <a href="#">Categories</a> later on, as described in this guide.
FIELD NAME	DATA ENTRY INSTRUCTIONS
Do you want the No Preview image as default image for the Items?	This option is no longer applicable and can be ignored.
Do you want the user to login when making a purchase?	Indicate whether the eMarket Storefront or Checkout should allow users to log in. Most eMarket Storefronts are anonymous but can be configured with optional or required login.

**Note:** We suggest that you **do not** elect for users to login to the system.

## Store Settings Fields

Display Sign In fields on the page header	This option is no longer applicable and can be ignored.
Display item selection in your account	This option is no longer applicable and can be ignored.
Check the payment options for the customer.	<p>Click on the checkbox next to the payment options available at your store.</p> <ul style="list-style-type: none"><li>• PIN-less Debit (<i>this option should be ignored as it is no longer used</i>)</li><li>• Credit Card</li><li>• ACH/Electronic Check</li><li>• Purchase Order</li><li>• International Funds Transfer</li></ul> <p><b>Note:</b> Payment by Purchase Order will only create a memo transaction indicating that a purchase order has been received. The information will not extract, and the status will not change.</p>

## Store Settings Fields

Recent Payment Option	Transact Payments has the ability to display a warning message to customers if they attempt to make more than one payment on the same account in the same store within a 24-hour period. Select <b>Not used</b> to disable this function, <b>Show warning</b> to only display an informational warning to the customer or <b>Enforce</b> to not allow the customer to make another payment of the same dollar amount within the 24-hour period.
Item Description on the catalog	This option is no longer applicable and can be ignored.
Category Description on the catalog	This option is no longer applicable and can be ignored.
Check if you want search capability (Applicable only if the payment flow is 'Shopping Cart').	Select this option if you want a search field to appear where customers can search all available items by item description. This only applies for Storefront stores.

## Store Settings Fields

FIELD NAME	DATA ENTRY INSTRUCTIONS
Can a user add the same item more than once to the basket?	Indicate whether or not a customer may add the same item more than once to a basket. For example, you may have the same item available as a pre-payment on the account balance or housing deposit. If you have set up your items with the option listed as a reference, you would need to indicate <b>Yes</b> here to allow a customer to purchase more than one option of the same item.
Can a user edit item quantities on the basket page?	If <b>Yes</b> is selected, customers will have the ability to edit item quantities on the basket page except for items that do not use quantity pricing.
Display basket on the catalog?	This option is no longer applicable and can be ignored.
Hide price on the catalog?	This option is no longer applicable and can be ignored.

## Store Settings Fields

Enter the URL to return to when user signs out.	<p>Enter the URL address that the user will automatically be directed to when either timing out or signing out of the store after completing a transaction.</p> <p>For the eMarket merchant, if this field is left blank, users will view a message that says, “You have successfully signed out.”</p> <p><b>Note:</b> Be sure to include http:// or https:// at the beginning of the URL.</p>
Enter the URL to return to when user signs out without completing the payment.	<p>Enter the URL address that the user will automatically be directed to when either timing out or signing out of the store prior to completing a transaction.</p> <p>For the eMarket merchant, if this field is left blank, users will be directed to the eMarket login page.</p> <p><b>Note:</b> Be sure to include http:// or https:// at the beginning of the URL.</p>
Do you want to pass information back to the calling system by appending data to the signout URL?	This option is no longer applicable and can be ignored.

## Store Settings Fields

Enter the timeout value for automatic log off (minutes).	This option is no longer applicable and can be ignored.
Select The Home Page	This option is no longer applicable and can be ignored.
Store Login Image / Login Banner Image	<p>If customers will access the login page for the eMarket site and you would like to replace the default background, click on the <b>Browse</b> button to select a replacement.</p> <p>The image size must have a maximum width of 500 pixels and the file size must be less than one megabyte.</p>

Finally, at the bottom of the page, to save changes and remain on the same page, click on the **SAVE** button; to access the next section and automatically save changes, click on the **CONTINUE** button.

To return to the previous page, click on the **BACK** button.

To return to the defaults associated with this page, click on the **RESTORE DEFAULTS** button.
