# WHY IS INVOLVEMENT IMPORTANT?

**Students involved in at least one activity or organization outside of the classroom:**

- Have better grades
- Improve time management, professional and personal skills
- More marketable to future employers and graduate programs
- Create long lasting friendships and connections
- Gain transferable skills

**400+ organizations, and up to three governance positions in each, there are over 1200 opportunities for you to lead!**

# Here's how to get involved!

- The Office of Student Activities and Involvement strives to create opportunities to **CONNECT** to their peers and the surrounding community. **CREATE** their lasting memories by trailblazing their own experience and designing their adventure. Through innovative programming, unique experiences, collaborative partnerships, and supportive resources, we strive to empower students to **EXPLORE** their passions and cultivate talents to give them an advantage in their post-graduate plans.

The background of the slide features a collage of two photographs. The top photograph shows two young women standing outdoors under a tree, smiling and talking. The bottom photograph shows three young women sitting at a red table indoors; one woman is using a laptop, and the other two are looking at it. A large red banner is overlaid on the top left, and a grey banner is overlaid on the bottom half.

Thank you!
