Our Mission

- The Office of Student Activities and Involvement strives to create opportunities to **CONNECT** to their peers and the surrounding community. **CREATE** their lasting memories by trailblazing their own experience and designing their adventure. Through innovative programming, unique experiences, collaborative partnerships, and supportive resources, we strive to empower students to **EXPLORE** their passions and cultivate talents to give them an advantage in their post-graduate plans.

WHY IS INVOLVEMENT IMPORTANT?

Students involved in at least one activity or organization outside of the classroom:

- Have better grades
- Improve time management, professional and personal skills
- More marketable to future employers and graduate programs
- Create long lasting friendships and connections
- Gain transferable skills

400+ organizations, and up to three governance positions in each, there are over 1200 opportunities for you to lead!
