# What Students Are Saying

“My biggest challenge in my first year of college was feeling like I was in a new world and **there were many times when I wished I had someone to just shoot a text to.** I would love to be that person for someone else” –Tyra S. (Mentor)

“As a first-generation student, I had numerous questions about the dos and don'ts. So having a mentor guide me through my first semester is phenomenal...**I'm starting to feel well equipped for my new school environment.**” – FAU Mentee

“Being alone for the first time has definitely been a challenge but **my mentor has helped me and guided me** with what I need to do whether it be about the campus or any questions I have about the fafsa etc.” – FAU Mentee
