What We Do

The Office of First-Generation Student Success is designed to ensure that all first-generation students and families have access to the information, services, and programs that are offered at Florida Atlantic University.

A First-Generation Student is any student whose parents have not completed a 4-year bachelor's degree.

We offer advising, workshops, and signature events each semester to help first-gen students navigate the college experience and make the most of their time at Florida Atlantic. Scan the QR code below to visit our website and learn more!
