

Postdoc Career Talk

FAU

OFFICE OF
POSTDOCTORAL AFFAIRS
Florida Atlantic University

ON THE ROAD AGAIN

Navigating the Road from Academia
to an Industry Career of a Mental
Health Medical Science Liaison

AMANDA MAPLE, PH.D.

Medical Science Liaison, Alkermes

Join Amanda Maple, Ph.D., as she navigates her way through her research career to becoming a medical science liaison. Maple was introduced to research in psychiatric disabilities from her early career as a social worker. Through her experiences in pharmacology, molecular biology, genetic techniques and more, she focused her research efforts on finding treatments for schizophrenia. Maple is currently a medical science liaison at Alkermes, a company dedicated to helping patients with debilitating diseases focused on neuroscience and oncology.

Maple's work in academia resulted in multiple publications, grants and training opportunities to help others who are affected by mental illness.

HOST

Lorena Areal, Ph.D., Postdoctoral Fellow
at FAU Brain Institute
