As a nurse in the U.S. Air Force, Col. Candy Wilson, Ph.D., spent more than 30 years providing primary care to the military. Her recent research addresses health needs of deployed military women, including maintaining iron levels, managing symptoms related to urinary and genital organs and chronic pain management.

Join Wilson as she discusses:
- Chronic pain issues in active soldiers and veterans
- Battlefield Acupuncture technique as an alternative approach to pain management
- Research results to treat low back pain, improve sleep and physical activity

Presented by Candy Wilson, Ph.D., associate professor, Christine E. Lynn College of Nursing
