

DIVISION OF RESEARCH
FLORIDA ATLANTIC UNIVERSITY

VIRTUAL RESEARCH IN ACTION

Mehrdad Nojournian, Ph.D., director of the Privacy, Security, and Trust in Autonomy Laboratory at Florida Atlantic University, investigates cybersecurity, human-autonomy interactions and cross-disciplinary research on the intersections of computer science and other disciplines.

Join Nojournian as he discusses:

- Dishonest mining strategies and countermeasures
- Broader applications of blockchain
- The future of cryptocurrencies

Understanding Blockchain and Cryptocurrencies

Presented by Mehrdad Nojournian, Ph.D.,
associate professor, College of Engineering
and Computer Science

1 – 2 P.M. EST
MONDAY, FEB. 20
