

# **Michael E. Hall**

---

## **Education**

### **University of Tennessee, College of Education, Health and Human Sciences, Knoxville, Tennessee**

Doctor of Philosophy in Human Ecology

Concentration in Community Health

Specialization in Safety

**Dissertation Research:** Measuring safety climate of workers at a steel mini-mill corporation in the United States.

### **East Tennessee State University, College of Public and Allied Health, Johnson City, Tennessee**

Master of Science in Environmental Health

Concentration in Water Resource Management

**Thesis Research:** Modification and application of U.S. Environmental Protection Agency's Information Collection Rule (ICR) for detection of *Cryptosporidium* /*Giardia* in water samples.

### **Salisbury University, Henson School of Science and Technology, Salisbury, Maryland**

Bachelor of Science in Environmental Health

**Undergraduate Research:** Use of non-root system plant species for treatment of wastewater

## **Experience**

Florida Atlantic University, Boca Raton, Florida 8/12 – Present

### **Assistant Professor**

- Teach undergraduate coursework in the Department of Exercise Science & Health Promotion

Florida Atlantic University, Boca Raton, Florida 8/09 – 8/12

### **Visiting Assistant Professor**

- Teach undergraduate coursework in the Department of Exercise Science & Health Promotion
- Chair, College of Education, Distinguished Scholar Lecture Series Committee, 2009-2010; 2010-2011; 2011-2012

Mississippi State University, Starkville, Mississippi 07/06 – 7/09

### **Assistant Professor**

- Teach graduate coursework in the Department of Food Science, Nutrition, and Health Promotion
- Academic advising for graduate students pursuing MS degree
- Oversee Graduate Assistants assigned to the department
- Develop coursework to be taught in the Department of Food Science, Nutrition, and Health Promotion

## **RESEARCH INTERESTS**

I have broad interest in Health Education, particularly in health behavior decisions and attitude measurement. Specifically I am interested in the measurement of attitudes as a predictor of behavior.

## **PROFESSIONAL MEMBERSHIPS**

American Alliance for Health, Physical Education, Recreation and Dance, AAPERD

American Public Health Association, APHA

Southeast American College of Sports Medicine, SEACSM

## **GRANTS**

Hall, M. – Principal Investigator (2014)  
Grant # 540033 Florida Dept. of Health – FAU Tobacco Free Campus Initiative  
\$12000 (awarded)

Hall, M. – Principal Investigator (2013)  
Grant # 540032 Florida Dept. of Health – FAU Tobacco Free Campus Initiative  
\$8000 (awarded)

Briley, C., Hall, M., Tidwell, D. and Trader, B. (2008) Curbing Childhood Obesity Among Preschoolers Through Increased Awareness of Gardening, Vegetable and Fruit Consumption, Nutrition and Physical Activity. Submitted to Mississippi Agricultural and Forestry Experiment Station, Special Research Initiative, Calendar 2009. \$66,040 (awarded)

## **TEACHING**

### **Florida Atlantic University**

#### **HSC 4581 Health Promotion (Undergraduate courses)**

A study of the fundamental concepts of health education and health promotion. Emphasis will be given to the process and practice of health promotion and the application of related health behavioral theories and models.

#### **HSC 4143 Substance Abuse**

The course examines the different aspects of substance abuse on personal health, identifies factors associated with substance use and abuse, describes the signs and symptoms of possible substance use and abuse, and identifies methods of prevention and control.

#### **HSC 4104 Stress Management**

The course includes a comprehensive study of the scientific foundations of stress. These include lifestyle conditions and their relationship to disease, recognizing stressors in various settings and stages of life, behavioral change interventions, and stress management techniques. This course examines and applies stress management concepts based on individual response and adaptation to internal and external influences.

#### **PET 3361 Nutrition in Health and Exercise**

Study of the nutritional needs of the athlete and active person. Emphasis includes: fat, carbohydrate, protein, vitamin, mineral and water needs of the active person; energy metabolism, food and fluid intake prior to, during, and after exercise; nutritional management of anemia and diabetes; nutrient needs of the young and old athlete.

## **Mississippi State University (Graduate courses)**

### **FNH 8613 Design and Administration of Health Promotion Programs**

Principles of health promotion planning models applicable to school, community, and work site programs. Investigation of existing programs and current literature.

### **FNH 8653 Implementation and Evaluation of Health Promotion Programs**

Development and application of evaluation protocols for health promotion programs. Process, impact and outcome measures are examined.

### **FNH 8543 Health Education for Diverse Populations**

This course is designed to help students identify and develop programs to overcome health disparities that exist in diverse populations.

### **FNH 8653 Principles of Epidemiology and Health Science Research**

This course is designed to assist students to develop the skills to interpret epidemiological research. Emphasis will be placed on interpretation of basic measures of death and disease along with evaluation of various study designs commonly used in the field of epidemiology.

### **FNH 3163 Basic Principles of Health Promotion (Undergraduate course)**

The course examines the role of Health Promotion in the prevention and control of public health issues and includes an orientation to the profession and considerations of current trends, problems, and issues in health promotion.
