

THE RELATIONSHIP BETWEEN PLANTS AND PEOPLE

presented by Maria Fadiman, Ph.D.

2 – 3 p.m.
Thursday, Feb. 21

400 NW 2nd Ave.
Boca Raton, FL 33432

Enroll online at bocalibrary.org

BOCA RATON PUBLIC LIBRARY RESEARCH IN ACTION

By looking at the connection between culture and the natural world, we can learn how to conserve knowledge and forests in a meaningful way.

Join Maria Fadiman, Ph.D., associate professor of geosciences, as she takes you through a journey into the rainforests of Latin America, the savannas of Africa and into the Bahamas where she worked with a National Geographic team.

You'll learn how people across the planet are utilizing plants for medicine, food, music, construction, rituals and other innovative ways.

Share your ideas for plant inspired research and help FAU address new and exciting challenges.

Watch her TED Talk, [here](#).
