Post-Tenure Review Evaluation Guidelines and Criteria
Department of Geosciences
College of Science
Florida Atlantic University
Provost Approved December 1, 2023

Post Tenure Review (PTR) serves as a periodic review of tenured faculty and is designed to foster sustained excellence and professional development and recognize and reward outstanding achievement.

PTR is separate and distinct from annual and other employee evaluations in that PTR will focus on long-term accomplishments over a period of five years. Most importantly, the PTR process has been designed to uphold the University’s fundamental principles of tenure, academic freedom, due process, and confidentiality in personnel matters.

The FAU PTR process and procedures are outlined in FAU Post-Tenure Review Policy in compliance with Florida BOG regulation 10.003.

Each Unit (Department) shall establish criteria for evaluation of faculty undergoing PTR and the determination of a “Performance Rating”

“Performance Rating” means the following rating scale:

- **Exceeds Expectations**: a clear and significant level of accomplishment beyond the unit’s and University’s written criteria, and beyond the average performance of faculty across the faculty member’s discipline and unit.
- **Meets Expectations**: an expected level of accomplishment based on the unit’s and University’s written criteria, compared to faculty across the faculty member’s discipline and unit.
- **Does Not Meet Expectations**: performance falls below the unit’s and University’s written criteria, compared to faculty across the faculty member’s discipline and unit, but is capable of improvement.
- **Unsatisfactory**: performance fails to meet the unit’s written criteria which reflects disregard or failure to follow previously documented and/or otherwise given advice or other efforts to provide correction; or documented incompetence or misconduct, as defined in applicable University regulations and policies, or applicable CBA provisions.

**Evaluation Procedure**

The office of the Dean of the College of Science shall notify faculty members and the Department Chair of upcoming PTR Evaluations and the due date for the evaluation file. The Department Chair shall establish appropriate departmental deadline dates for the PTR process to meet the due date set by the College of Science.
The faculty member shall prepare a PTR Portfolio in Interfolio. The PTR will be conducted based on a portfolio containing a summary of the faculty member’s activities, and history of professional accomplishments and performance of academic responsibilities to the University and its students during the entire five-year Review Period.

The PTR portfolio should contain relevant to the five-year review period:

- a current *curriculum vita* that clearly highlights accomplishments in teaching, scholarship, and service,
- copies of the faculty member’s last five annual assignments and annual evaluations including any attached written rebuttals by a faculty member under review,
- a copy of the report of the previous SPE or PTR, if available,
- a copy of the published criteria from the faculty member’s academic unit (see Articulation of Unit Expectations below),
- a brief (2 page) narrative from the faculty member, and
- other relevant measures of faculty accomplishments as appropriate.

The faculty member shall upload his or her PTR portfolio to the Department by the deadline date set by the Department. This portfolio (other than cv) is confined to the five-year period under review. The Department Chair may return noncompliant portfolios to the faculty member for revisions. Refusal to present a completed and acceptable portfolio or failure to submit it on time shall result in the outcome of “Does Not Meet Expectations”.

**Departmental PTR Committee**

- The Departmental PTR Committee shall be composed of tenured faculty members. Full professors will be reviewed by full professors, and associate professors will be reviewed by tenured professors.

- The Departmental PTR Committee is tasked to initiate the process of review and deliberation of all submitted PTR portfolios. The PTR Committee may request the Department Chair (or his/her designee) and the Dean of the College of Science (or his/her designee) to participate in its deliberations.

- Upon completion of the evaluation, the Departmental PTR Committee shall prepare a brief report summarizing its recommended assessment of each faculty member’s performance during the five-year period under review. The Committee’s report shall indicate whether the faculty member’s performance (1) Exceeds Expectations, (2) Meets Expectations, or (3) Does Not Meet Expectations, or is (4) Unsatisfactory, and shall cite specific areas, reasons and evidence, corresponding to the annual assignments, to support the Committee’s conclusion. In case the evaluation report is not unanimously agreed, the report must include the anonymous minority opinions written by the
members of the Committee involved. The Departmental PTR Committee shall deliver its
evaluation reports to the Department Chair by the deadline date set by the Department.

• The Department Chair will prepare a report for each Eligible Faculty Member based on
the aforementioned Criteria and Report Requirements defined above and affix the
reports to the PTR files. The Department Chair’s report shall include a recommended
Performance Rating and shall not be binding upon the Dean or the Provost.

• The Department Chair will provide the Eligible Faculty Member with access to the
complete PTR file, including all reports, and notify the Eligible Faculty Member that they
have five calendar days to submit a rebuttal to be included in the PTR file. After the five-
calendar day response period, the PTR files will be forwarded to the College Dean

PTR Evaluation Expectations and Criteria

The Departmental Policy and Criteria for Annual Evaluations and the Departmental Policy and
Criteria for Promotion and Tenure will serve in guiding the thought process and expectations in
the determination of the performance rating for the PTR Evaluation. In view of the various kinds
of contributions faculty members make during the course of their careers, departmental
expectations must also be sufficiently flexible to embrace the variability of faculty interest,
activities, and strengths. As PTR explicitly considers the Annual Assignments of each faculty
member, expectations will weight appropriately the full range of assignments a tenured faculty
member may receive.

PTR Evaluation Expectations

• Teaching: As defined by annual assignments, the faculty member must maintain dutiful
teaching of assigned undergraduate and/or graduate courses, exhibit competence as
demonstrated by student evaluations, peer review, and/or other evaluation vehicles, and
actively mentor students with demonstrable outcomes, such as timely graduation,
successful DIR completions, or other activities.

• Research: As defined by annual assignments, the faculty member must maintain
assigned level of research activities, as demonstrated by publication of research results
in refereed journals, books or book chapters, and/or at professional conferences, and/or
invited speaking engagements in academic venues to disseminate research, application
for and/or attraction of research funding, and directing and training of undergraduate
and graduate students performing research, among other activities.

• Service: As defined by annual assignments, the faculty member must duly serve on
assigned departmental/college/university committees and/or other administrative
duties, engage in public service in various forms, such as invited talks in public venues,
provide service in professional societies, at national and international scientific meetings or as a peer reviewer for scientific journals and grant agencies, and promote the interest and welfare of the Department, the College, and the University.

PTR Evaluation Criteria

- The overriding criteria for PTR evaluation are the faculty member’s annual assignment and annual evaluation scores over the past five years.

- The PTR Committee and Chair shall consider that the faculty member’s assignments and respective performance expectations may have changed over the past five years.

- The PTR Committee and Chair shall consider that the faculty member may have made contributions to the Department, the College, and the University in various ways over the past five years.

- The PTR Committee and Chair shall consider that the nature or form of the faculty member’s contributions may have varied over the past five years.

- The PTR Committee and Chair shall consider that innovative and transformative research or teaching may take time to succeed and may sometimes fail.

- The PTR Committee and Chair shall consider that unusual or unpopular research, teaching, or service is not by itself sufficient cause for a negative evaluation.

- The PTR Committee and Chair shall consider any unique circumstances of each faculty member’s areas of research, teaching, service, and/or academic administration in the context of overall performances by all tenured faculty members in the Department.
