Post-Tenure Review Evaluation Guidelines and Criteria
Department of Mathematical Sciences
College of Science
Florida Atlantic University
Provost Approved December 1, 2023

Post Tenure Review (PTR) serves as a periodic review of tenured faculty and is designed to foster sustained excellence and professional development and recognize and reward outstanding achievement.

PTR is separate and distinct from annual and other employee evaluations in that PTR will focus on long-term accomplishments over a period of five years. Most importantly, the PTR process has been designed to uphold the University’s fundamental principles of tenure, academic freedom, due process, and confidentiality in personnel matters.

The FAU PTR process and procedures are outlined in FAU Post-Tenure Review Policy in compliance with Florida BOG regulation 10.003.

Each Unit (Department) shall establish criteria for evaluation of faculty undergoing PTR and the determination of a “Performance Rating”

“Performance Rating” means the following rating scale:

- **Exceeds Expectations**: a clear and significant level of accomplishment beyond the unit’s and University’s written criteria, and beyond the average performance of faculty across the faculty member’s discipline and unit.
- **Meets Expectations**: an expected level of accomplishment based on the unit’s and University’s written criteria, compared to faculty across the faculty member’s discipline and unit.
- **Does Not Meet Expectations**: performance falls below the unit’s and University’s written criteria, compared to faculty across the faculty member’s discipline and unit, but is capable of improvement.
- **Unsatisfactory**: performance fails to meet the unit’s written criteria which reflects disregard or failure to follow previously documented and/or otherwise given advice or other efforts to provide correction; or documented incompetence or misconduct, as defined in applicable University regulations and policies, or applicable CBA provisions.

**Evaluation Procedure**

The office of the Dean of the College of Science shall notify faculty members and the Department Chair of upcoming PTR Evaluations and the due date for the evaluation file. The Department Chair shall establish appropriate departmental deadline dates for the PTR process to meet the due date set by the College of Science.
The faculty member shall prepare a PTR Portfolio in Interfolio. The PTR will be conducted based on a portfolio containing a summary of the faculty member’s activities, and history of professional performance of academic responsibilities to the University and its students during the entire five-year Review Period.

The PTR portfolio should contain relevant to the five-year review period:

- a current *curriculum vita* that clearly highlights accomplishments in teaching, scholarship, and service,
- copies of the faculty member’s last five annual assignments and annual evaluations including any attached written rebuttals by a faculty member under review,
- a copy of the report of the previous SPE or PTR, if available,
- a copy of the published criteria from the faculty member’s academic unit (see Articulation of Unit Expectations below),
- a brief (2 page) narrative from the faculty member, and
- other relevant measures of faculty accomplishments as appropriate.

The eligible faculty member shall upload the PTR portfolio to the Department by the deadline date set by the Department. This portfolio (other than cv) is confined to the five-year period under review. The Department Chair may return noncompliant portfolios to the faculty member for revisions. Refusal to present a completed and acceptable portfolio or failure to submit it on time shall result in the outcome of “Does Not Meet Expectations”.

**Departmental PTR Committee**

- The Departmental PTR Committee shall consist of tenured faculty members of the Department including at least three full professors and shall be approved annually by a majority of tenured and tenure-track faculty members of the Department.

- The Departmental PTR Committee is tasked to initiate the process of review and deliberation of all submitted PTR portfolios. The PTR Committee may request the Department Chair (or designee) and the Dean of the College of Science (or designee) to participate in its deliberations.

- Upon completion of the evaluation, the Departmental PTR Committee shall prepare a brief report summarizing its recommended assessment of each faculty member’s performance during the five-year period under review. The Committee’s report shall indicate whether the faculty member’s performance (1) Exceeds Expectations, (2) Meets Expectations, or (3) Does Not Meet Expectations, or is (4) Unsatisfactory, and shall cite specific areas, reasons and evidence, corresponding to the annual assignments, to support the Committee’s conclusion. In case the evaluation report is not unanimously agreed, the report must include the anonymous minority opinions written by the
members of the Committee involved. The Departmental PTR Committee shall deliver its evaluation reports to the Department Chair by the deadline date set by the Department.

- The Department Chair will prepare a report for each Eligible Faculty Member based on the aforementioned Criteria and Report Requirements defined above and affix the reports to the PTR files. The Department Chair’s report shall include a recommended Performance Rating and shall not be binding upon the Dean or the Provost.

- The Department Chair will provide the Eligible Faculty Member with access to the complete PTR file, including all reports, and notify the Eligible Faculty Member that they have five calendar days to submit a rebuttal to be included in the PTR file. After the five-calendar day response period, the PTR files will be forwarded to the College Dean.

PTR Evaluation Expectations and Criteria

The Departmental Policy and Criteria for Annual Evaluations and the Departmental Policy and Criteria for Promotion and Tenure will serve in guiding the thought process and expectations in the determination of the performance rating for the PTR Evaluation. In view of the various kinds of contributions faculty members make during the course of their careers, departmental expectations must also be sufficiently flexible to embrace the variability of faculty interest, activities, and strengths. As PTR explicitly considers the Annual Assignments of each faculty member, expectations will weight appropriately the full range of assignments a tenured faculty member may receive.

PTR Evaluation Expectations

- Teaching: As defined by annual assignments, the faculty member must maintain dutiful teaching of assigned undergraduate and/or graduate courses, exhibit competence as demonstrated by student evaluations and peer review. Additionally, if applicable, other instructional activities such as (but not limited to) production of teaching materials, DIS, DIR, or actively mentoring students should be taken into consideration.

- Research: As defined by annual assignments, the faculty member must maintain appropriate level of research activities, as demonstrated by publication of research results in refereed journals, conference proceedings, (chapters in) monographs, application for and/or attraction of research funding, and/or directing and training of students and post-doctoral fellows performing research.

- Service: As defined by annual assignments, the faculty member must duly serve on assigned departmental/college/university committees and/or other administrative duties including participation in preparation and coordination (if applicable) for Ph.D. qualifying exams. Additionally, engaging in public service in various forms, providing service to professional societies, at national and international scientific meetings or as
editor/peer reviewer for scientific journals and grant agencies, and promoting the
interest and welfare of the Department, the College, the University, or for the discipline
should be taken into consideration.

PTR Evaluation Criteria

- The primary criteria for PTR evaluation are the faculty member’s annual assignment and
annual evaluation scores over the past five years.

- The PTR Committee and Chair shall consider that the faculty member’s assignments and
respective performance expectations may have changed over the past five years.

- The PTR Committee and Chair shall consider that the faculty member may have made
contributions to the Department, the College, and the University in various ways over
the past five years.

- The PTR Committee and Chair shall consider that the nature or form of the faculty
member’s contributions may have varied over the past five years.

- The PTR Committee and Chair shall consider that innovative and transformative research
or teaching may take time to succeed and may sometimes fail.

- The PTR Committee and Chair shall consider that unusual or unpopular research,
teaching, or service is not by itself sufficient cause for a negative evaluation.

- The PTR Committee and Chair shall consider any unique circumstances of each faculty
member’s areas of research, teaching, service, and/or academic administration in the
context of overall performances by all tenured faculty members in the Department.
