

*The National Save The Sea Turtle Foundation  
is Proud to Announce the 2018-2019*

## **Florida Atlantic University Undergraduate Scholarship Program**

The *National Save The Sea Turtle Foundation* plans to donate sufficient funds to Florida Atlantic University for 4 undergraduate scholarships at \$15,000 each during the 2018-2019 academic year. The scholarship will provide financial assistance to Charles E. Schmidt College of Science seniors enrolled at the Boca Raton Campus who demonstrate academic excellence, financial need, and a commitment to become scholars and ambassadors that represent the Marine Science program at Florida Atlantic University. As such, they are expected to develop as well-rounded, skilled, and committed individuals who are motivated to engage the public through education, research and outreach activities appropriate to both their specific interests in the field, as well as those of importance in the field of marine biology.

The ideal candidate is an undergraduate about to enter their senior year with interest in any aspect of marine biology research at the ecological, evolutionary, or behavioral level and educational outreach. Preference will be given to applicants in good standing in the biology department's Honors Thesis Program who demonstrate financial need, coupled with a commitment to community service, academic excellence, and a desire to enhance their ability to engage the public. These scholarships shall be awarded on the basis of need and merit without regard to race, color, religion, age, sex, national origin, or disability.

### **Help Support This Program!**

Your Contribution to the Foundation's Undergraduate Scholarship Program can help support even more promising young scientists! Help us meet the 2019-2020 goal of at least four more \$15,000 scholarships for well-deserving seniors who will become scholars and ambassadors that represent the marine science program at Florida Atlantic University.
