Please join us as we come together as a community to learn about one of the most prevalent and yet most often misunderstood mental disorders, social anxiety.

The Andrew Kukes Foundation for Social Anxiety is proud to present Dr. Andrew Rosen, Ph.D., FAACP. Dr. Rosen's presentation will discuss how social anxiety affects children, adolescents and adults. Following this free presentation, we will open the floor up for questions and discussion. Enjoy coffee and an assortment of delicious desserts.

Dr. Rosen is Board Certified in Clinical Psychology, Diplomate and Fellow in Clinical Psychology, Academy of Clinical Psychology, social anxiety expert and Founder and Director of the Center for the Treatment of Anxiety and Mood Disorders in Delray Beach, Florida and member of the Anxiety Disorders Association of America.

In addition to his clinical successes, Dr. Rosen has written numerous articles, contributed to several books, and has appeared as a professional authority on countless television and radio shows concerning anxiety disorders and many other conditions.
