Greetings!

What a remarkable year for FAU and the Division of Student Affairs. FAU is number one in the State University System in terms of the Board of Governor’s 10 performance based metrics. This incredible achievement, under the leadership of President Kelly, was a university wide collaborative effort that resulted in success, especially for our students. The University’s strategic plan is in full implementation and I am excited that Student Affairs is playing an important part in several of the strategic platforms: Leadership, Diversity, & Healthy and Environmentally Sustainable Campus. In addition, we have enhanced our vision and mission statements as well as our core values. We have also developed a comprehensive framework to build a culture of evidence through assessment and learning outcomes. Lastly, the division continues to progress in fulfilling our ten goals.
1. Develop a strategy for maximum impact on important BOG metrics for student retention and graduation.

2. Create meaningful living-learning communities on and/or near campus.

3. Engage all students in traditional collegiate experiences, such as on-campus activities and leadership development opportunities.

4. Develop a successful strategy for building a strong Town/Gown relationship that attracts national attention.

5. Provide leadership to the university’s strategic platform regarding Healthy & Environmentally Sustainable Campus by reconfirming the university’s Healthy Campus (HC) 2020 initiative.

6. Provide leadership to the university’s strategic platform regarding Diversity.

7. Develop the program, fundraising, and construction strategy for a new Student Union and a new Health and Wellness Center.

8. Expand services and programs that increase military and veteran enrollment, retention, and graduation rates.

9. Design career services so that it is the best among the State University System (SUS).

10. Develop a comprehensive student transition program to support the university’s strategic plan to increase international student enrollment.
Vision Statement
The Division of Student Affairs aspires to ignite purpose and passion in our students to become socially responsible and globally engaged leaders. We will challenge ourselves and our students, to accept and act upon our responsibility, to be role models who learn and act to create meaningful and impactful change at FAU and beyond.

Mission Statement
We create diverse, challenging and transformative environments through our innovative and effective programs, services, and outcomes-based approach to student learning and development. We equip students with necessary tools to achieve academic, personal, and career success.
